Welcome message

Dear Colleagues,

First of all, thank you to be part of the first edition of the “Paris Breast Rendez-Vous”. It was a huge challenge to organize this international event. Many of the breast experts have accepted our invitation and the number of participants widely exceeds our expectations!

The objective of this congress is to gather together the multiple and complementary expertises of our international faculty, including aesthetic, reconstructive and oncologic surgeons.

In this congress, priority is given to interactivity and discussion. You will assist in plenary sessions that includes lectures, videos and clinical cases.

The live surgery will be transmitted from Gustave Roussy operative theater. Technical tricks and tips will be presented by the surgeons and you will get to ask them direct questions.

Several workshops, on the other hand, will give you the occasion to discuss more closely with the experts.

The Welcome Cocktail on thursday afternoon will give us a chance to get to know each other over a glass of bubbly.

Friday night, we invite you to the Gala Dinner, a unique moment of conviviality on the banks of the Seine, aboard a restaurant boat. During which, we will discover the magical night of Paris, the “City of Lights”. We hope that you will enjoy the live music and the dance party!

The «Paris Breast Rendez-Vous» is also part of a common vision of breast surgery education in partnership with the most famous breast meetings held in Europe. We are also pleased to present to you the creation of the “European Master’s degree in surgical oncology, Reconstructive and aesthetic Breast Surgery (MRBS)”.

**We sincerely hope that this conference will reach your expectations.
It is with great pleasure that we welcome you to this first edition!**

FRANÇOISE RIMAREIX

NICOLAS LEYMARIE

BENJAMIN SARFATI

Thursday, March 26

BREAST ONCOLOGIC SURGERY

7.30 – 8.30
REGISTRATION

8.30 – 8.45

INTRODUCTION AND OPENING – *Françoise Rimareix*

8.45 – 9.00

OPENING KEYNOTE LECTURE

“Perspectives in personalized breast cancer treatment” – *Suzette Delaloge*

9.00 – 18.00

LIVE SURGERY

- Reverse abdominoplasty and fat transfert (RAFT) for breast reconstruction – *Roger Khouri*
- Oncoplastic surgery – *Krishna Clough*
- Immediate breast reconstruction with ADM – *Roy de Vita*

9.00 – 9.50

PERSONALIZED BREAST CANCER TREATMENT

Chairmen: Suzette Delaloge – Jean-Yves Petit

- What's new in breast cancer diagnosis? – *Corinne Balleyguier*
- Decisional algorithms and nomograms in breast cancer surgery – *Chafika Mazouni*
- Intraoperative radiotherapy (IORT) – *Gilles Houvenaeghel*
- Oncological outcomes outcomes and quality of life after prophylactic mastectomy – *Olivier Caron*

9.50 – 10.40

IMPROVEMENT OF BREAST CONSERVATIVE SURGERY

Chairmen: Jean-Pierre Lefranc – Alexandre Leduey

- State of the art in oncoplastic breast surgery – *Krishna Clough*
- How to manage aesthetic sequelae after breast conservative surgery – *Alfred Fitoussi*
- Safety and efficiency of fat grafting after breast conservative surgery – *Jean-Yves Petit*
- Management of breast premalignant lesions – *Catherine Uzan*

10.40 – 11.10
COFFEE BREAK

11.10 – 12.10

NOVELTIES IN ONCOLOGIC BREAST SURGERY

Chairmen: Chafika Mazouni – Krishna Clough

- Is there still indications for axillary dissection? – *Remy Salmon*
- Sentinel lymph node biopsy: new techniques – *Jean-Remi Garbay*
- The place of surgery in prevention or treatment of the lymphoedema – *Jaume Masia*
- Breast surgery without drains?
 - Axillary padding technique – *Jean Remi Garbay*
 - Low-thrombin fibrin sealant in axillary dissection – *Olivier Beatrix*

12.30 – 13.30
LUNCH BREAK

13.30 – 15.00

IMMEDIATE BREAST RECONSTRUCTION

Chairmen: Françoise Rimareix – Roy de Vita

- Indications and techniques for skin and nipple sparing mastectomy – *Jean Yves Petit*
- Real safety of immediate breast reconstruction: Free flap Vs Prothesis – *Jian Farhadi*
- Fat grafting for immediate breast reconstruction – *Isabelle Cothier-Savey*
- Immediate breast reconstruction in case of adjuvant treatment – *Jean-Rémi Garbay*
- Impact of radiotherapy on alloplastic and autologous breast reconstruction
– *Françoise Rimareix*
- Impact of immediate breast reconstruction on adjuvant radiotherapy
– *Eleonor Rivin Del Campo*

15.00 – 15.30
COFFEE BREAK

15.30 – 16.30

NOVELTIES IN BREAST RECONSTRUCTION

Chairmen: Alfred Fitoussi – Jaume Masia

- BRAVA and Reverse Abdominoplasty and Fat Transfer (RAFT) for breast reconstruction
– *Roger Khouri*
- Polyurethane implants in breast reconstruction – *Stefano Pompei*
- How to optimize direct to implant breast reconstruction? – *Jean-François Honart*
 - Acellular dermal matrices – *Karl Breuing*
 - Meshes – *Stefano Pompei*
 - Abdominal advancement flap – *Benjamin Sarfati*

16.30 – 18.30

Held at « Bâtiment de Médecine Moléculaire » - Room 62

NOVILASE SYMPOSIUM

Minimally Invasive Ablation of Breast Lesions by Laser

- **Laser ablation of breast tumors: surgeon's point of view**
– *Jean-Rémi Garbay*
- **Principles and modalities of the ablation of breast tumors by laser**
– *Corinne Balleyguier*
- **MRI and ultrasound correlations** – *Sandra Canale*
- **Pathologic evaluation of post-laser ablation lumpectomy specimens**
– *Marie-Christine Mathieu*

17.00 – 19.00

WELCOME COCKTAIL

Friday, March 27

BREAST RECONSTRUCTIVE SURGERY

7.30 - 8.30

Held at « Espace Maurice Tubiana »

WORKSHOP

Oncoplastic surgery: indications and technical refinements

- Nicolas Leymarie / Benjamin Sarfati / Jean-Remi Garbay

7.30 - 8.30

Held at « Bâtiment de Médecine Moléculaire » - Room 62

WORKSHOP

Perforator mapping with color Doppler for perforator flap: how to do it?

- Quentin Qassemyar / Jean-François Honart / François Bidault

8.30 - 9.00

KEYNOTE LECTURES

- Share decision making in breast cancer: a patient's point of view - Catherine Cerisey
- Role of advocacy organizations in breast cancer care - Giovanna Marsico (Europa Donna)
- Present and future in breast surgery education - Jaume Masia

9.00 - 10.00

PROSTHETIC BREAST RECONSTRUCTION

Chairmen: Isabelle Cothier Savey - Anne Dancey

- Preoperative planning and strategy for prosthetic secondary breast reconstruction - Roy de Vita
- Composite breast reconstruction - Maurizio Nava
- Prosthetic reconstruction in ptotic or large breast - Jian Farhadi
- Place of the expanders in breast reconstruction - Jean-François Honart
- Searching for an ideal technique of inframammary fold reconstruction - Nicolas Leymarie

10.00 - 11.00

AUTOLOGOUS BREAST RECONSTRUCTION

Chairmen: Guillaume Karsenti - Sinikka Suominen

- Free flap modeling in secondary breast reconstruction - Jean Philippe Binder
- Aesthetic advance in autologous breast reconstruction - Moustapha Hamdi
- Patient's satisfaction and quality of life after DIEP flap - Laurent Lantieri
- Technical tips for safe perforator dissection - Anne Dancey
- Strategy of vascular anastomoses in free flap reconstruction - Sinikka Suominen

11.00 - 11.20

COFFEE BREAK

11.20 - 11.50

KEYNOTE LECTURES

- Megavolume autologous fat transfer - Roger Khouri
- Refinements in extended latissimus dorsi - Emmanuel Delay
- How to optimize the fat grafting efficiency? - Régis Roche

11.50 - 12.30

SECOND AND THIRD STAGES IN BREAST RECONSTRUCTION

Chairmen: Laurent Lantieri - Maurizio Nava

- Refinements in nipple and areola complex reconstruction - Heba Alkhashnam
- Local perforator flaps for partial or total breast reconstruction - Moustapha Hamdi
- Refined method of lipofilling following DIEP flap reconstruction - Xavier Nelissen

12.30 – 13.30
LUNCH BREAK

12.30 – 13.00

ORBIX SYMPOSIUM

Mastopexy with internal fixation

Speaker: Moustapha Hamdi

Held at « Espace Maurice Tubiana »

Catering on site

13.30 – 14.30

PBRV CONTEST: FRANCE VS. REST OF THE WORLD

Referee: Jaume Masia

French Team: *Alfred Fitoussi, Laurent Lantieri, Isabelle Cothier-Savey*

Rest of the world: *Stefano Pompei, Sinikka Suominen, Jian Farhadi*

- 6 Clinical cases
- Discussion and voting

14.30 – 14.40

KEYNOTE LECTURES

- Anaplastic large cell lymphoma and breast implant: up-to-date and patients management
– *Emmanuel Delay*

14.40 – 15.30

BREAST REDUCTION AND MASTOPEXY

Chairmen: Sinikka Suominen – Michael Atlan

- Cutaneous congruence in vertical scar mammaplasty with preservation of mammary base
– *Rami Selinger*
- Breast shaping in massive weight loss patient – *Vladimir Mitz*
- Long term results after breast reduction / mastopexy – *Michael Scheflan*
- New concepts in mastopexy: non-scar and internal fixation techniques – *Moustapha Hamdi*

15.30 – 16.00
COFFEE BREAK

16.00 – 16.50

MANAGEMENT OF COMPLICATIONS

Chairmen: Rami Salinger – Michael Scheflan

Beliefs and evidence based medicine about prevention and treatment:

- Infection in prosthetic breast surgery – *Mitchell Brown*
- Capsular contracture: the inside story! – *Anne Dancey*
- Management of capsular contracture with ADM – *Roy de Vita*
- Breast reduction after radiotherapy: is it reasonable? – *Alfred Fitoussi*

16.50 – 18.00

MY MOST DIFFICULT CASES & WORST RESULTS

Chairmen: Jean-Yves Petit, Vladimir Mitz, Sinikka Suominen, Jaume Masia, Mitchell Brown, Michael Scheflan

- 6 clinical cases
- My most difficult cases
- My worst results

Saturday, March 28

BREAST AESTHETIC SURGERY

7.30 – 8.30

Held at « Bâtiment de Médecine Moléculaire » - Room 62

WORKSHOP

Tips & tricks to optimize your private practice

– *Virginie Azaïs / Fabienne Tissie*

7.30 – 8.30

Held at « Espace Maurice Tubiana »

WORKSHOP

Shaping flaps in breast reconstruction

– *Moustapha Hamdi*

8.30 – 9.30

BREAST AUGMENTATION / EPISODE 1

Chairmen: Mitchell Brown – Eric Auclair

- Preoperative marking for breast augmentation – *Michael Scheflan*
- Implant choice: Round or anatomic? – *Roy de Vita*
- The right plane: subglandular, subfascia or dual plane? – *Mitchell Brown*
- Is there an ideal coating for implant? – *Stefano Pompei*
- Matrix and meshes in aesthetic surgery – *Karl Breuing*

9.30 – 10.10

TUBEROUS BREAST CONTEST: AUTOLOGOUS vs IMPLANTS

Referee: Stefano Pompei

Competitors: *Emmanuel Delay / Maurizio Nava*

10.10 – 10.40

COFFEE BREAK

10.40 – 11.30

BREAST AUGMENTATION / EPISODE 2

Chairmen: Rami Selinger – Stefano Pompei

- Composite breast augmentation – *Eric Auclair*
- Fat grafting for aesthetic breast augmentation – *Michael Atlan*
- Breast rehabilitation in aesthetic augmentation – *Eric Auclair*
- My learning curve in breast augmentation – *Maurizio Nava*

11.30 – 12.30

SPECIFIC AESTHETIC PROCEDURES

Chairmen: Eric Auclair – Michael Atlan

- Poland Syndrom – *Emmanuel Delay*
- The multiplane technique: internal mastopexy with limited scars – *Constantin Stan*
- Reduction of fatty breast by an extensive lipoaspiration combined to a short scar pure skin resection – *Rami Selinger*
- Breast augmentation in transgender patients – *Sinikka Suominen*
- Male chest contouring in female-to-male transsexuals – *Jonathan Rausky*

12.30 – 12.40

SUMMARY OF THE RENDEZ-VOUS - *Françoise Rimareix*

12.40 – 13.40
LUNCH BREAK

13.40 – 16.10

Held at « Espace Maurice Tubiana »

LIFECCELL SYMPOSIUM

Acellular Dermal Matrix « Strattice™ Reconstructive Tissue Matrix »

- **The science behind « Strattice »** - *Emma Wright*
- **ADM myths and evidence: literature review** - *Karl Breuing*
- **Surgical technique in immediate breast reconstruction** - *Michael Atlan*
- **Management of postoperative outcomes** - *Michael Atlan*
- **The use of ADM in revisional aesthetic surgery** - *Karl Breuing*
- **Clinical cases & interactive discussion** - *Karl Breuing*
- **Closing remarks** - *Emma Wright*

Conference co-chairs

FRANÇOISE RIMAREIX

Plastic Surgeon
Congress Chair
Villejuif, France

Dr. Françoise Rimareix is head of the Breast Surgery Unit at Gustave Roussy Hospital, one of the main French Comprehensive Cancer Center. She is a plastic surgeon, specialized in prosthetic and autologous breast reconstruction, microsurgery and oncoplastic surgery.

NICOLAS LEYMARIE

Plastic Surgeon
Congress Co-Chair
Villejuif, France

Dr. Nicolas Leymarie is senior consultant at Gustave Roussy Hospital, that is one of the main Comprehensive Cancer Center in France. His main activity is dedicated to prosthetic and autologous breast reconstruction, microsurgery and oncoplastic surgery.

BENJAMIN SARFATI

Plastic Surgeon
Congress Co-Chair
Villejuif, France

Dr. Benjamin Sarfati is senior consultant at Gustave Roussy Hospital, that is one of the main Comprehensive Cancer Center in France. He is specialized in prosthetic and autologous breast reconstruction, microsurgery and oncoplastic surgery. He is the funder of MeltingDoc, the professional social network for Medical Doctors: www.meltingdoc.com. He also works in private practice for aesthetic surgery.

Local organizing committee

HEBA ALKHASHNAM
Plastic Surgeon
Villejuif, France

Dr. Alkhashnam is a plastic surgeon at Gustave Roussy, one of the main comprehensive cancer centers, Villejuif, France. She graduated from University College Dublin in Ireland. She started her residency in her home country Kuwait and finished it in Paris, France. Microsurgery and autologous reconstruction is what interests her the most. She is specialized in breast and cervicofacial reconstructive surgery.

ANDREA CAVALCANTI
Breast Surgeon
Villejuif, France

Dr. Andrea Cavalcanti is member of the unit of plastic surgery in the Gustave Roussy. Her principal activity is melanoma surgery, but she also performs breast surgery.

LAURENCE DENECHERE
Medical Secretary
Villejuif, France

Laurence Denechere is the head of medical secretaries of the department of general surgery at Gustave Roussy. She is in charge of the organization of many events related to international teaching courses or congresses, especially the «Paris Breast Rendez-Vous 2015».

JEAN-REMI GARBAY
Breast Surgeon
Villejuif, France

Dr. Jean-Rémi Garbay is a surgical oncologist, specialized in breast surgery. He is member of ASCO and many national scientific societies. He is also chief editor of "La Lettre du Senologue" a French CME journal on breast disease.

JEAN-FRANÇOIS HONART
Plastic Surgeon
Villejuif, France

Dr. Jean-François Honart is a plastic surgeon in Gustave Roussy Hospital, one of the main French Comprehensive Cancer Centers. He is specialized in prosthetic and autologous breast reconstruction, microsurgery and oncoplastic surgery.

FRÉDÉRIC KOLB
Plastic Surgeon
Villejuif, France

Dr. Frédéric Kolb is head of the Plastic and Reconstructive Surgery Unit at Gustave Roussy Hospital, one of the main French Comprehensive Cancer Centers. He is specialized in microsurgery reconstruction of Breast and Head and Neck. He has also a particular interest in lymphaticovenous anastomosis for lymphoedema treatment.

CHAFIKA MAZOUNI
Breast Surgeon
Villejuif, France

Dr. Chafika Mazouni is fully accredited gynaecologist surgeon specialized in breast surgery at Institute Gustave Roussy, Villejuif, France. She is a member of the French Society of Senology and Breast Pathology and EORTC Pathobiology group (PBG). Her research interests are Risks prediction in breast cancer: development of nomograms, rare tumours in breast and axillary nodal risk.

QUENTIN QASSEMYAR
Plastic Surgeon
Villejuif, France

Dr. Qassemyar is a plastic surgeon at Gustave Roussy hospital, one of the main comprehensive cancer centers. He is specialized in free flap reconstruction, especially in head and neck reconstruction and also in supermicrosurgery and lymphaticovenular anastomoses.

Congress Faculty

MICHAEL ATLAN
Plastic surgeon
Paris, France

Michael ATLAN, MD MSc is an associate Professor, at Pierre et Marie Curie Faculty of Medicine, with a permanent position in Tenon Hospital (Assistance Publique-Hôpitaux de Paris) in an integrated Breast Cancer Center. Former head of department of Pontoise Hospital, he now is the head of Unit of Plastic and Reconstructive surgery, and pursues an academic career within his institution. With three other surgeons and two residents, his team practices aesthetic surgery and has the responsibility of dermatologic, thoracic, abdominal wall and pelvic post-oncological surgery defects. He did his residency in France between Lille and Paris (Pr Lantiéri Team) and he got a position for a Microsurgical and Hand Surgery Fellowship in Montreal and a Breast Reconstruction Fellowship in the University Of British Columbia, in Vancouver. Michael Atlans's areas of expertise are microsurgical breast reconstructions (Free flaps and Lymphedema) and the evaluation of plastic surgery innovations, especially for breast surgery (Acellular regeneration Matrix and other devices).

ERIC AUCLAIR
Plastic Surgeon
Paris, France

Dr. Eric Auclair exercises in Paris for more than twenty years. Member of the French Society of Plastic, Reconstructive and Aesthetic Surgery (SOFCPRE) and the International Society of Aesthetic and Plastic Surgery (ISAPS), he was President of the French Society of Aesthetic Plastic Surgery (SOFCEP) in 2012.

Internationally renowned plastic surgeon, Dr. Eric Auclair is thought leader in the field of breast augmentation. He is one of the leaders of the French touch. This French specificity reflects the practice of cosmetic surgery tailored interventions characterized by natural results.

CORINNE BALLEYGUIER
Radiologist
Villejuif, France

Dr Corinne BALLEYGUIER, MD, PhD, radiologist at Gustave Roussy Cancer Campus, Villejuif, France. Specialized in Women Imaging, Breast and gynaecologic Imaging.

She is a member of the French radiological society (SFR), the French breast Imaging society (elected as active member since 2010) (SIFEM), the European Society of Radiology (ESR), the European Society of Breast Imaging (EUSOBI)-Active member elected since 2012, the European Society of Uro-genital Radiology (ESUR), the Radiological Society of North American Radiology, the editorial board European Journal of Radiology-Woman imaging and the ESUR gynaecological subcommittee since 2008.

She is a section editor on Woman Imaging for European Journal of Radiology since 2010.

Dr Balleyguier is involved in breast Imaging committee for ECR 2012-2013-2014-2015

She was the Chairwoman of Uro-Gynecological Imaging of ECR 2010 and will be the Chairwoman of breast imaging committee for ECR 2016.

OLIVIER BEATRIX
Breast Surgeon
Lyon, France

Dr Olivier Beatrix is a general surgeon, working in Hospices Civils de Lyon, France.

He is specialized in oncologic surgery, especially in Breast cancer and melanoma.

FRANÇOIS BIDAULT
Radiologist
Villejuif, France

Dr. François Bidault, MD, MSc is radiologist at Gustave Roussy Cancer Campus. He is specialized in Head and Neck and Vascular Imaging,

especially in the preoperative assessment of the perforating vessels.

JEAN-PHILIPPE BINDER
Plastic Surgeon
Paris, France

Dr. Binder is a plastic surgeon specialized in microsurgery and breast reconstruction. He exercises in the Plastic and Reconstructive Depart-

ment (Pr Revol) at Hôpital Saint-Louis (Paris). He is one of the co-chairman of the oncologic breast surgical courses at Paris VII University and Gustave Roussy. He is a member of « Senosphere » network.

KARL BREUING

Plastic Surgeon
Boston, United States

Dr. Karl Breuing is a plastic surgeon in Boston, Massachusetts and is affiliated with Brigham and Women's Hospital. He received his medical degree from Johannes Gutenberg University of Mainz Faculty of Medicine.

He is specialized in Breast Reconstruction and Microsurgery. He is also particularly interested in Biomedical Technology Assessment.

MITCHELL BROWN

Plastic Surgeon
Toronto, Canada

Dr. Brown is the founder and co-course director of the Toronto Annual Breast Surgery

Symposium, Canada's largest annual medical symposium of its kind. In 2011, Dr. Brown founded Breast Reconstruction Awareness (BRA) Day, an annual day to acknowledge the need for education, access and awareness for breast reconstruction following the treatment of breast cancer. BRA Day is now recognized in over twenty countries worldwide.

Dr. Brown is an Associate Professor in the Department of Surgery at the University of Toronto and is the Residency Training Program Director for the Division of Plastic and Reconstructive Surgery.

SANDRA CANALE

Radiologist
Villejuif, France

Dr. Sandra Canale, MD, is a radiologist at Gustave Roussy Cancer Campus, Villejuif,

France. Specialized in Women Imaging, Breast and gynecologic Imaging.

She is a speaker at many university courses, especially in breast cancer imaging.

OLIVIER CARON

Geneticist
Villejuif, France

Dr Olivier CARON, MD, MSc Medical Doctorate (MD), 2004, Louis Pasteur University, Stras-

bourg, France. MSc in Genetics and Molecular Biology, 2002, Paris V University, France. Postgraduate degree in Medical Genetics, 2004, Louis Pasteur University, Strasbourg, France. Postgraduate degree in Medical Oncology, 2006, Louis Pasteur University, Strasbourg, France. After his MD, Dr O. Caron occupied a position as a Hospital Practitioner at the University Hospital of Strasbourg, France. He shared his time between the genetic lab, where he was in charge of the analysis of cancer predisposition genes and quality manager, and the oncogenetics consultation in the Department of medical Oncology. In 2008, he moved to Gustave Roussy University Hospital, Villejuif, France. He has run since then the genetic clinics in the Department of Clinical Oncology. He has been the head of the Gustave Roussy Genetics board since 2009. His activity is now focused on consultations (more than 2000/ year). He teaches at Gustave Roussy School of Oncology (Paris-Sud University). He is involved in around 10 major national and international studies in the field of breast/ovarian predisposition, Lynch syndrome and other digestive cancer predispositions, Li Fraumeni syndrome and melanoma predisposition. He has more than 60 publications on these various topics.

CATHERINE CERISEY

Web Chronicler
Paris, France

After 20 years in Art business, Catherine Cerisey was diagnosed with breast cancer in 2000, which reappeared in 2002. In 2009, she created her blog, « After my breast cancer » to support and inform women. The blog became very popular and she was called upon to participate in an other editorial site, « la maison du cancer » and in « Rose magazine », a twice a year magazine for women with cancer. In late 2012, she created with Giovanna Marsico, Patients & Web, a consultancy for patient-related health projects. She is the vice-president of CancerContribution, an health advocacy organization and member of the board of Europa

Donna Forum France, the French branch of the European coalition who represents the interests of European women regarding breast cancer.

KRISHNA CLOUGH

Plastic Surgeon
Paris, France

Dr. Krishna B. CLOUGH is a surgical oncologist and a plastic surgeon, specialized in breast surgery. In 1996, he was appointed Chief of the Department of General and Breast Surgery of the Curie Institute. He decided to resign from his hospital functions in 2004 to found the PARIS BREAST CENTRE-L'INSTITUT DU SEIN, the first centre in France dedicated exclusively to breast surgery and breast cancer. He, along with a small group of European surgeons, created the concept of "Oncoplastic surgery".

Dr. CLOUGH is a member of the board of directors of the French Society of Breast Disease. He is one of the founding members of Breast Surgery international and a member of the European Society of Mastology. He is the founder and director of the breast surgery masterclass at the European School of Surgery (Paris), and is the co-chairman of the breast surgical course at the European Institute of Oncology (Milan).

ISABELLE COTHIER SAVAY

Plastic Surgeon
Paris, France

Dr. Isabelle Cothier Savay is a surgical oncologist and a plastic surgeon, specialized in breast surgery. She practices in one of the most famous French hospital for breast cancer treatment: the Curie Institute. She is a member of the French Society of Breast Disease and French Society of Plastic Reconstructive and Aesthetic Surgery. Center of interest: Breast Cancer, Oncoplastic and reconstructive Surgery.

ANNE DANCEY

Plastic Surgeon
Birmingham, England

Anne Dancey is a consultant plastic surgeon based at University Hospital Birmingham, UK. She has a specialist interest in microvascular breast reconstruction and lymphoedema surgery.

She is well published, being the author of over 30 papers and several prestigious book chapters, and is regularly asked to peer review articles for the major international plastic surgery journals. She is a tutor in oncoplastic surgery at University of East Anglia and a BAPRAS council member.

SUZETTE DELALOGUE

Oncologist
Villejuif, France

Suzette Delaloge, MD MSc, is Associate Professor of Medical Oncology and Head of Breast

Cancer Department at Gustave Roussy Institute, Paris, France.

She is a member of the INSERM U981 Unit dedicated to tumour biomarkers in oncology. She has received numerous academic grants for research activities since 2000.

Her major areas of expertise and development, in addition to the breast-screening clinic, are the management of individuals at high risk of breast cancer, therapeutic development guided by prognostic and predictive biology, and the organization of care in breast oncology. In November 2014, she has been elected as new chairwoman of the National French Cooperative Breast Cancer InterGroup-Unicancer UCBG. She is a member of American Society of Clinical Oncology, European Society of Medical Oncology, French Society of Breast Care and Breast Pathology.

Dr Delaloge is a member of the editorial board of the international journals Annals of Oncology and The Breast. She has organized since 2000 an innovative high-risk clinic dedicated to women at high genetic risk. She has launched in 2004 the first French One Stop Unit dedicated to breast lesions, in which more than 15,000 women have been seen as yet, making it the world's largest experience.

EMMANUEL DELAY

Plastic Surgeon
Lyon, France

Dr. Emmanuel DELAY is a plastic surgeon in Lyon.

Specialized in Plastic, Reconstructive and Aesthetic Surgery since 1991, he is a member of the French Society of Plastic, Reconstructive and Aesthetic Surgery (SOF-

CPRE), a member of the American Society of Plastic Surgery (American Society of Plastic Surgeons ASPS) since 1994, and is the creator of the ISPRES (International Society of Plastic Regenerative Surgery).

He focuses on five research themes and topics: Plastic and Aesthetic Breast Surgery and Plastic and Aesthetics of the face, the Plastic Surgical Oncology, the fat transfer, and the original fat and mammary stem cells, with their applications such as regenerative medicine, regenerative surgery, and tissue engineering.

ROY DE VITA

Plastic Surgeon
Roma, Italia

Roy de Vita is one of the most famous Italian plastic surgeon. He is Chief of Plastic and Reconstructive Surgery Department at the National Cancer Institute of Rome « Regina Elena ». Dr. Roy de Vita is a co-chair of the « Rome Breast Symposium ». He is very active in the media; especially he is the first surgeon, who did a direct live procedure on TV.

JIAN FARHADI

Plastic Surgeon
London, England

Jian Farhadi is the Clinical Director of the Department of Plastic and Reconstructive Surgery of Guy's and St Thomas' Hospital London. His clinical and academic interest is in aesthetic and reconstructive breast surgery. Due to his extensive experience, he is part of the faculty of the European School of microsurgery, co-director of the Master of the European Breast Surgery and the chair of the London Breast Meeting.

ALFRED FITOUSSI

Plastic Surgeon
Paris, France

Dr. Alfred FITOUSSI is a surgical oncologist and a plastic surgeon, specialized in breast surgery. He practices in one of the most famous breast cancer centres, Institut Curie. He is also the founder of « Le Centre du Sein », in Paris. He participated in the development of Onco-plastic surgery and breast reconstruction. Dr. Fitoussi has also published several books

on breast surgery, and participated in the training of doctors and surgeons who specialize in breast surgery.

MOUSTAPHA HAMDI

Plastic Surgeon
Brussels, Belgium

Moustapha Hamdi was born in Syria. He was graduated from medical school of Damascus University. He did his training in general and plastic surgery in Brussels, Glasgow and Atlanta. He had worked as professor in Gent University for 10 years.

Currently, he is the head of department of plastic and reconstructive surgery in free university of Brussels. He is also a consultant in Edith Cavell Medical Institute.

Pr. Hamdi is an international speaker and organizer of many meetings and courses in breast surgery. His major expertise is breast reconstruction mainly with perforator flaps; however, he has also contributed to many chapters of aesthetic breast surgery.

He is not only chairman of the section of microsurgery within the Royal Belgian Society for Plastic Surgery (RBSPS) and a member of the Belgia Board of Plastic Surgery but he is an expert member of the high council of Ministry of health in Belgium. He is also active within the scientific committee of the European Society of Plastic Surgeons (EURAPS); in addition, he is an honorary member in Australian, Colombian and Syrian societies and a member of the British (BAPS), International (ISAPS), American (ASPS and ASRM) and the World Society of Microsurgery (WSRM) societies.

GILLES HOUVENAEGHEL

Oncologist surgeon
Marseille, France

Pr. Houvenaeghel is the head of the general oncologic and gynecologic surgery department at Institut Paoli Calmettes in Marseille, France. His major areas of expertise are breast surgery, especially development of intraoperative radiotherapy, and laparoscopic gynecologic surgery.

GUILLAUME KARSENTI
Plastic Surgeon
Montpellier, France

Dr. Karsenti graduated from the University of Paris Descartes – Faculty of Medicine.

He was interested in microsurgery and reconstructive surgery so he made a fellowship at the Institut Gustave Roussy where he specialized in breast reconstruction and skin cancer. Then he returned to the south of France in Montpellier, as Plastic and Reconstructive Surgeon, in a private practice. He performs mostly breast and facial surgery. Dr Karsenti is a member of the French Society of Plastic, Reconstructive and Aesthetic Surgery.

ROGER KHOURI
Plastic Surgeon
Miami, USA

Dr. Roger Khouri is the founder of the Miami Breast Center. He was a pioneer in reconstructive microsurgery and flaps before becoming a pioneer in fat transfer to the breast. He invented the BRAV, external expander that led him to develop the breakthrough third-option breast reconstruction procedure called BRAVA + Fat transfer.

For his expertise and his pioneering work on the regenerative abilities of fat grafts and BRAVA in breast reconstruction and augmentation, Dr Khouri has been invited to lecture all over the world.

LAURENT LANTIERI
Plastic Surgeon
Paris, France

Chief of the Plastic Reconstructive and Aesthetic Surgery Department at Hôpital Européen Georges Pompidou, Dr Laurent Lantieri is specialized in Breast reconstruction and microsurgery. He is an innovator, and was the pioneer of breast reconstruction using DIEP flap in France. He also performed the first full-face transplantation.

ALEXANDRE LEDUEY
Plastic Surgeon
Levallois, France

Dr. Alexandre Leduey is a surgical oncologist and a plastic surgeon, specialized in breast surgery. He graduated in plastic, cosmetic, oncology and reconstructive surgery. After completing his surgical training in France (Paris University), Dr. Alexandre Leduey joined the most famous French hospitals for breast cancer treatment (Gustave Roussy and Curie institutes) in 2009 and in 2013 where he published clinical papers on breast cancer and breast surgery. In 2014, he was appointed Chief of the Department of plastic and Breast Surgery of the Franco-Britannique institute, at Levallois-Perret, France.

JEAN-PIERRE LEFRANC
Gynecologic surgeon
Paris, France

Pr. JP LEFRANC is Chief of Gynaecologic and Breast Surgery at Pitié-Salpêtrière, Paris. Surrounded by famous radiologists, oncologists and radiotherapists, this unit is specialized in the treatment of breast cancer and breast reconstruction.

GIOVANNA MARSICO
Founder of patient associations
Paris, France

A former lawyer in Milan (Italy), Giovanna is responsible for the citizen pole of Cancer Campus and director of Cancer Contribution, a health advocacy organisation. Co-founder of “Patients&Web”, a consultancy for patient-related health projects, Giovanna Marsico is a health democracy and patients’ empowerment activist. She is member of the Board of Europa Donna Forum France, the French branch of the European coalition Europa Donna. This umbrella organization works to raise awareness of breast cancer and to mobilise the support of European women in pressing for improved breast cancer education, appropriate screening, optimal treatment and increased funding for research. EUROPA DONNA represents the interests of European women regarding breast cancer to local and national authorities as well as to insti-

tutions of the European Union.
She also sits at the board of the organisation Jeunes Solidarité Cancer, at the Ethical Council of Gustave Roussy and she is member of the ITC Council of the French Academy of Medicine.

JAUME MASIA

Plastic Surgeon
Barcelona, Spain

Dr Jaume Masia is Chief of Plastic Surgery Department, Hospital de la Santa Creu i Sant Pau and Hospital del Mar, Barcelona, Spain.
He is also Professor in Plastic Surgery in the School of Medicine, Universitat Autònoma de Barcelona, Spain; Director of the Microsurgery and Breast Reconstructive Unit; and Chair of the « Barcelona Breast Meeting ». He belongs to many scientific societies: President of the Spanish Society of Plastic, Aesthetic and Reconstructive Surgery (SECPRE), President of the Spanish Group for Advanced Breast Reconstruction (GERMA) and Member of Spanish Supervising Committee for the Plastic Surgery Education, Health Ministry, Madrid, Spain.

MARIE-CHRISTINE MATHIEU

Pathologist
Villejuif, France

Dr. Marie-Christine Mathieu is pathologist in comprehensive cancer center, Gustave Roussy in Villejuif, France. She is the reference concerning breast pathology in Gustave Roussy.

VLADIMIR MITZ

Plastic Surgeon
Paris, France

After his training, Dr Mitz travelled in USA and worked with Pr. Millard (Miami), Pr. Converse (NYC) and Harry Buncke (San Francisco), where he practiced microsurgery. Then he returned in France, as Plastic and Reconstructive Surgeon in Hôpital Saint-Louis, Boucicaut or Hôpital Georges Pompidou.

Doctor Vladimir Mitz is the former president of the French society of plastic reconstructive and aesthetic surgery. He is a member of the French Society of Plastic, Reconstructive and Aesthetic Surgery, of the American Society of Aesthetic Plastic Surgery, of the Surgery Academy. Dr.

Mitz is an innovator and an internationally renowned anatomist.

MAURIZIO NAVA

Plastic Surgeon
Milan, Italy

Dr Maurizio NAVA is an oncologic surgeon, specialized in Plastic and Reconstructive surgery, head of the Plastic Surgery Unit at the « Istituto Nazionale dei Tumori » in Milan. He is also the President of the Oncologic Reconstructive Surgery School, and member of the Italian Society of Plastic Surgery, the European Society of Surgical Oncology, American Society of Plastic and Reconstructive Surgery and European Society of Mastology.

XAVIER NELISSEN

Plastic Surgeon
Liège, Belgium

Dr. Xavier Nelissen is graduated in Plastic Reconstructive and Aesthetic Surgery from the medical school of Liege University. He has mainly a private practice in Belgium, and he is also consultant in Liège University Hospital. His centers of interest are Breast Surgery, Microsurgery, Cervicofacial reconstruction, Body contouring and Aesthetic surgery.

JEAN-YVES PETIT

Plastic Surgeon
Milan, Italy

Dr Petit is a plastic surgeon, specialized in Breast and other districts reconstruction after demolition interventions.

He is author of more than 150 publications, the most important of which are dedicated to the study of nipple sparing mastectomy.

He is also the director of the Plastic Department at the Istituto Europeo di Oncologica in Milan.

STEFANO POMPEI

Plastic Surgeon
Roma, Italy

Stefano Pompei is specialized in Plastic and Reconstructive Surgery. After his residency in Plastic Surgery care of the Hospital of Defects of the Face, San Paulo in Brazil, he trained in Plastic Surgeon care of the National Cancer Ins-

titute” Regina Elena “, Rome, Italy, from 1987 to 2000.

Today, he is head of the Reconstructive and Plastic Surgery Unit at the “Sandro Pertini” General Hospital, Rome, Italy, from 2001. He is the Director of ACOI Special School of Reconstructive Breast Surgery (Italian Association of Public Hospital Surgeons)

Author and co-author of 123 National and International Scientific Publication, his main Clinical Activities is Breast and Head and Neck Reconstruction, Microsurgery, Post Trauma Reconstruction (Face and Limbs) and cosmetic Surgery.

JONATHAN RAUSKY
Plastic Surgeon
Paris, France

Dr. Rausky graduated from the University of Paris Descartes, Faculty of Medicine.

He continued his preparation as a plastic surgeon. He was interested in microsurgery and reconstructive surgery, where he joined two fellowship programs in Hong Kong and Taiwan.

Then he returned to France, as Plastic and Reconstructive Surgeon in Hôpital Saint-Louis and Robert Debre.

Member of the French Society of Plastic, Reconstructive and Aesthetic Surgery, he exercises in the Department of Plastic and Reconstructive surgery (Pr Revol) at Hôpital Saint-Louis (Paris). He is specialized in breast surgery and transgender surgery.

ELEONOR RIVIN DEL CAMPO
Radiation Oncologist
Villejuif, France

Dr. Eleonor Rivin del Campo is a Radiation Oncologist at Gustave Roussy. She received her medical degree from the University of Málaga, Spain and went on to specialize in Radiation Oncology in the Reina Sofia University Hospital in Córdoba, Spain. Her main focus is on breast cancer, although she is also beginning to sub-specialize in the gastro-intestinal field. Her European PhD is underway, titled “Radiotherapy quality control in cervical cancer” and is being performed within a European multicenter trial.

RÉGIS ROCHE
Cellular biologist
La Réunion, France

Régis Roche, PhD in cellular biology, is a scientist specialised in adipose tissue and stem

cells with a degree in cell therapy.

He led the ‘fat, innate immunity and inflammation’ team during 6 years at Reunion university before orientating his research in the field of plastic surgery, and particularly lipofilling. He is the author of several international publications on adipose tissue physiology, and use of fat for lipofilling indications. He leads since 2010 the STEM CIS group, dedicated to research and development of innovative medical devices for the use of adipose tissue and stem cells in the areas of cosmetic and reconstructive surgery (Adip’sculpt company), and for regenerative medicine. He is a member of the Reunion university scientific board.

REMI SALMON
Breast Surgeon
Paris, France

Dr. Salmon was the Chief of Breast surgery Unit in Institut Curie, Paris.

He is as member of the French Surgery Academy. He is also member of many national scientist societies and surgical association. He is now a private practice surgeon at the « Poterne des Peupliers » Hospital in Paris.

MICHAEL SCHEFLAN
Plastic Surgeon
Tel Aviv, Israel

Dr. Michael Scheflan is board certified by the American Board of Surgery and the American Board of Plastic Surgery. He is certified in the same specialties in Israel.

Trained in Albert Einstein, Mount Sinai, Harvard and Emory Universities in the States.

Practicing in Tel Aviv Israel, in solo private practice, where he served as the president of the Israel Society of Plastic Surgeons.

Dr. Scheflan’s main fields of interest are: Aesthetic and Reconstructive Breast Surgery, Facial Rejuvenation and Body Contouring, both through surgery and non-invasive techniques, and the clinical use of fat and Adipose Derived Stem Cells.

RAMI SELINGER
Plastic Surgeon
Paris, France

Dr. Rami Selinger is a plastic surgeon in Paris since 1990. He was the president of SOFCEP (French society of plastic and aesthetic surgery). He is a member of the French Society of Plastic Reconstructive and Aesthetic Surgery. He is also an honorary member of the Israeli Society of Plastic and Aesthetic Surgery. Interests and innovations: Short scar mammaplasties (BAMACO procedure), Body contouring (Classification and surgery of dorsal folds, Vertical gluteopexy).

CONSTANTIN STAN
Plastic Surgeon
Bacau, Romania

Dr. Constantin Stan is a member of the Romanian Plastic and Re-constructive Surgery Society, member of the European Academy for Cosmetic Surgery (EACS), member of the French Society for Aesthetic Surgery (FSAS), member of the North-American Academy for Cosmetic and Re-constructive Surgery, honorary member of the South American Academy for Aesthetic Surgery. In 1997 he became a first physician, specialized in ORL and cervical and facial surgery and since then he has performed only aesthetic surgery in private centres. During all these years, Dr. Stan attended several supra-specialized courses in Romania but mainly abroad; whose peak was the Master's Degree in Aesthetic Surgery at the University in Milan, Italy, within the School of Plastic Surgery, in university year 2000-2001 (Professor Donatti and Professor Pellegrini). In 2003 Dr. Stan started his second specialization training in Plastic and Reconstructive Surgery, in the clinic of Professor Ioan Lascar in Floreasca Emergency Hospital in Bucharest.

SINIKKA SUOMINEN
Plastic Surgeon
Helsinki, Finland

Dr. Suominen graduated from the University of Helsinki, Faculty of Medicine in 1989. She continued her preparation as a plastic surgeon obtaining the degree in 1999. She was interested

in microsurgery and reconstructive surgery, with training programs in Taiwan and Helsinki. Her clinical interest in Breast reconstruction is remarkable.

CATHERINE UZAN
Gynecologic surgeon
Villejuif, France

Catherine Uzan is an Assistant Professor in the Department of Gynaecologic Surgery in the Gustave Roussy Center, Villejuif France. She obtained her PhD in 2008 on carcinogenesis pathway in endometriosis. She practices breast and gynaecologic surgery, especially advanced laparoscopic surgery. She obtained a specific junior reward of the French Academy of surgery for her work on fertility and cancer in 2010. She has an important experience in the design and conduct of clinical and translational researches. Her work has resulted in over 100 peer-reviewed publications (80 in English). Her main topics of clinical and translational research are: conservative management of gynaecologic cancer, borderline ovarian tumours, cancer and pregnancy, de-escalation for atypical breast lesions and decrease of surgical morbidity.

Informations

CERTIFICATE OF ATTENDANCE

Your personal Certificate of Attendance is available at the registration desk during the congress. Gustave Roussy approval number for Continuing Professional Development (CPD) is 1395.

WORKSHOPS AND SYMPOSIA

The pre-registration to the workshops and symposiums is required at the registration desk of the congress.

The workshops and symposiums will be held at the main conference room of «Espace Maurice Tubiana» and at «Bâtiment de Médecine Moléculaire».

The topics and locations of the workshops and symposiums are summarized at the end of this program

«PARIS BREAST RENDEZ-VOUS» FEEDBACK

Your evaluation of the congress will help us to improve the next editions of the «Paris Breast Rendez-Vous». The evaluations forms will be sent to you by email few days after the congress. Please do not hesitate to contact one member of our organizing committee to give your feedback of the congress.

WELCOME COCKTAIL

.....
A welcome cocktail will be held on Thursday, 26 march at «Espace Maurice Tubiana» from 17.00 to 19.00.

GUSTAVE ROUSSY CANCER CENTER

Three pillars : care, research and education

The Gustave Roussy cancer center, founded in 1926 by professor Gustave Roussy, distinguished itself from the very beginning by its wholly integrated approach to research, care and teaching; today, it is one of the ten world leaders in the fight against cancer. Gustave Roussy is a private health care establishment of public interest and a not-for-profit organisation. Its internationally renown professionals are specialists with regard to all different types of cancer, at all stages and at all ages. As an expert center in dealing with complex cancers, Gustave Roussy brings together cutting-edge medical care and human support. Gustave Roussy's specificity is also based on its therapeutic innovation, which today puts it at the forefront in very promising areas such as personalised medicine – which takes into account the patient and their tumour's genetic characteristics – and tomorrow's therapies (immunotherapy, DNA repair inhibitors, epigenetic modulators).

At the forefront of centers in the fight against cancer

A key actor on the European and international oncology scene, Gustave Roussy applies a global approach to cancer, employing multidisciplinary teams to care for each patient and define by a multidisciplinary process the best treatments for them. Top level research, conducted at the very heart of the Institute, is aimed at the integration of basic, translational and clinical approaches, so that the results can be applied as quickly as possible for the benefit of the patient. The teaching provided to the students, researchers and practitioners, enables them to bring into practice new developments in cancer treatment, and introduce innovations.

The Institute is a driving force in the dissemination of knowledge and training by exporting its working models, its experience and medical expertise abroad. Further, numerous academic partnerships are nurtured with the greatest cancer centers in the world for worldwide research projects. Gustave Roussy's holds a central position in the project Cancer Campus – a campus of international scope which structures, around the Institute, university activities in research and health innovation – and Grand Paris, a future Greater Paris Area which links the major economical centers of mainland France.

(90ECTS) **2015 - 2017**

UAB

Universitat Autònoma
de Barcelona

PROGRAM CONTENTS

(COURSE 2015-2017)

*Please note: dates and location are subject to change

- M1 Breast oncology**
European School of Oncology,
Milan (Italy)
6th-8th October 2015
- M2 Clinical training in oncological surgery**
Institut Gustave Roussy, Paris (France)
26th-29th October 2015
- M3 Dissection in fresh cadaver**
Human Anatomy Department,
Alicante (Spain)
19th-20th November 2015
- M4 Essential concepts in microsurgery plus rat**
Hospital de Sant Pau, Barcelona (Spain)
11th-13th, 13th-15th,
18th-20th January 2016
- M5 Dissection techniques of flaps in live animal model**
European Institute of TeleSurgery
Strasbourg (France)
22nd-23th September 2016
- M6 Concepts and basics in oncoplastic breast reconstruction**
St Thomas' Hospital London, London (UK)
8th-12th February 2016
- M7 Clinical training in implant based breast reconstruction**
St Thomas' Hospital London, London (UK)
8th-12th February 2016
- M8 Clinical training in autologous breast reconstruction**
Hospital de Sant Pau, Barcelona (Spain)
16th-18th November 2015
- M9 Clinical training in aesthetic breast surgery**
Clinic Pyramide, Zurich (Switzerland)
2nd-5th May 2016
- M10 Clinical training in lymphatic surgery**
Hospital de Sant Pau,
Barcelona (Spain)
14th-15th March 2016
- M11 Clinical immersion programme**
September 2015-June 2017

On-Site evaluation, Barcelona (Spain)

Why would you risk using anything other than Strattice™ Reconstructive Tissue Matrix in your patients for breast reconstruction?

- The most frequently used biological tissue matrix in Europe*
- Over 60 publications documenting its use¹
- Coding, coverage and reimbursement in England²

Reconstruction mammaire

*Plus qu'un implant mammaire,
une approche sur-mesure*

- ✓ 35 ans d'expérience dans la fabrication des implants mammaires et despanseurs tissulaires¹
- ✓ Enregistrés dans plus de 76 pays dans le monde
- ✓ Des données cliniques impliquant plus de 160,000 patients^{*2}
- ✓ L'implant Natrelle™ 410 d'Allergan est l'un des seuls implants anatomiques commercialisés en Europe qui bénéficie également de l'agrément pour la commercialisation de la Food & Drug Administration (FDA)*.

Des Femmes différentes
Des Choix différents

Les implants mammaires etpanseurs tissulaires de la gamme Natrelle™ sont destinés aux mammoplasties d'augmentation et de reconstruction. Ce sont des dispositifs médicaux de classe III marqués CE 0459.

La gamme se compose des produits suivants :

- Les prothèses Natrelle™ INSPIRA™ TRL/TSL, TRLP/TSLP, TRM/TSM, TRF/TSF, TRX/TSX, 410, 410ST et lespanseurs 133 : pris en charge par les organismes d'assurance maladie dans certaines situations : consultez ameli.fr.
- Les prothèses Natrelle™ INSPIRA™ SRL/SSL, SRLP/SSLP, SRM/SSM, SRF/SSF, SRX/SSX etpanseurs Natrelle™ 150 : non pris en charge par les organismes d'assurance maladie.

Veuillez consulter la notice d'utilisation du dispositif médical disponible dans la boîte.

Les complications suite à la pose d'un implant mammaire comprennent : (liste non exhaustive) rupture et ou dégonflement de l'implant, contracture capsulaire, infection, nécrose, hématome, réactions inflammatoires, extrusion de l'implant, formation de rides/plis, douleurs, rotation de l'implant anatomique, ptose, distorsion, calcification, atrophie du tissu mammaire/déformation de la paroi thoracique, diffusion du gel, déformation de l'implant.
