WELCOME MESSAGE

Dear Friends and Colleagues,

First of all, thank you to be part of the second edition of the “Paris Breast Rendez-Vous”.

The objective of this congress is to gather together the multiple and complementary expertises of our international faculty, including aesthetic, reconstructive and oncologic surgeons. In addition to the main scientific programme, you will have the opportunity to attend teaching video sessions and interactive workshops with the experts.

And this year, for the first time, you will enjoy 3D breast surgery in a real movie theater, discover a new experience !.

The “Paris Breast Rendez-Vous” is now a part of the European Educational Network for breast surgery. The aim of this network is to advance the quality of all aspects of breast surgery, through different modalities of education.

We sincerely hope that this conference will reach your expectations.
It is with great pleasure that we welcome you again to this event!

Kind Regards,

FRANÇOISE RIMAREIX

Thursday, May 19th

BREAST ONCOLOGIC SURGERY

7.30 – 8.30
REGISTRATION

8.30 – 8.45

INTRODUCTION AND OPENING - *Alexander Eggermont*

8.45 – 9.00

OPENING KEYNOTE LECTURE

“Breast cancer and molecular medicine” - *Fabrice Andre*

9.00 – 10.00

PERSONALIZED BREAST CANCER TREATMENT

Chairmen: Alfred Fitoussi, Suzette Delaloge

Breast tomosynthesis - *Corinne Balleyguier*

Hypofractionated radiotherapy for breast cancer - *Sofia Rivera*

Innovations in neoadjuvant chemotherapy - *Suzette Delaloge*

New trends in adjuvant chemotherapy - *Mahasti Saghatchian*

10.00 – 10.30
COFFEE BREAK

10.30 – 11.30

ONCOPLASTIC SURGERY

Chairmen: Shawna C. Willey, Jean-Rémi Garbay

Long-term results of oncoplastic surgery - *Krishna Clough*

How to deal with the inner quadrants - *Jean-François Honart*

How to deal with the lateral quadrants - *Benoit Couturaud*

Breast conservative surgery or mastectomy and immediate breast reconstruction?

- *Alfred Fitoussi*

Aesthetic sequelae after breast conserving surgery and radiotherapy, why? - *Alain Toledano*

11.30 – 11.45

KEYNOTE LECTURE

The Future in breast reconstruction - *Jaume Masia*

10.30 – 11.30

PROPHYLACTIC SURGERY

Chairmen: Krishna Clough, Jian Farhadi

Risk associated with BRCA and other mutations - *Olivier Caron*

Risk reducing surgery - *Rémi Salmon*

Nipple sparing mastectomy: how to deal with the ptosis? - *Alfred Fitoussi*

How to preserve the skin in nipple & skin sparing mastectomy - *Shawna C. Willey*

12.30 – 13.30
LUNCH BREAK

12.30 – 13.30

SYMPOSIUM MEDTRONIC

“Nipple Sparing Mastectomy”

Chairmen: Krishna Clough

The US Experience - *Shawna C. Willey*

The French Experience - *Gilles Houvenaeghel, Monique Cohen, Marie Bannier*

📍 Room Grands Causses

12.30 – 13.30

SYMPOSIUM INTEGRA

“Plastic and Reconstructive Surgery with ADMs”

Session Introduction - *Michael Scheflan*

Science & technology of surgical meshes in plastic and reconstructive surgery
- *Charles Bret Jessee*

Techniques in post-mastectomy immediate breast reconstruction - *Michael Scheflan*

Discussion - *Michael Scheflan & Charles Bret Jessee*

📍 Room Carlades

13.30 – 14.30

IMMEDIATE BREAST RECONSTRUCTION

Chairmen: Maurizio Nava, Françoise Rimareix

Nipple sparing mastectomy and autologous breast reconstruction - *Jian Farhadi*

Immediate delayed autologous (IDEAL) breast reconstruction: A new concept? - *Christopher Andree*

Meshing, what else? - *Michael Scheflan*

Direct to Implant Breast Reconstruction without Meshes or ADM? - *Marzia Salgarello*

14.30 – 14.50

KEYNOTE LECTURE

“The non-traumatic mastectomy techniques” - *Michael Scheflan*

14.50 – 16.15

RADIOTHERAPY & RECONSTRUCTION

Chairmen: Phillip Blondeel, Laurent Lantieri, Sofia Rivera

Preoperative breast radiotherapy and immediate breast reconstruction for large breast tumors - *Krishna Clough*

Impact of adjuvant radiotherapy on immediate autologous reconstructions - *Phillip Blondeel*

How to manage implant reconstruction in case of adjuvant radiotherapy? - *Stefano Pompei*

Should we offer implant based reconstruction when radiation expected - *Jian Farhadi*

Adjuvant radiotherapy after prosthetic breast reconstruction :
technical and oncological issues - *Alain Toledano*

16.15 – 17.00
WELCOME COCKTAIL

17.30 – 20.00

3D SURGERY AT THE MOVIE THEATER

3D aesthetic and reconstructive surgeries with live comments

Constantin Stan - «Multiplane Mastopexy Reduction»

Nicolas Leymarie - «Extended Latissimus Dorsi»

Benjamin Sarfati - «Robotic Mastectomy»

Per Heden - «Breast Augmentation»

Chairmen: *Christopher Andree - Jaume Masia - Roy de Vita - Stefano Pompei*

📍 UGC Ciné Cité Bercy

Friday, May 20th

BREAST RECONSTRUCTIVE SURGERY

8.00 – 9.00

BREAKFAST WITH THE EXPERTS

Tips and tricks in the Microsurgical anastomosis techniques

- *Christopher Andree, Frederic Bodin*

Correction of aesthetic sequelae with breast conserving surgery

- *Benjamin Sarfati, Nicolas Leymarie*

📍 Room Carlades
& Room Grands Causses

9.00 – 11.30

TEACHING VIDEO SESSION - PART 1: FREE FLAPS

Teaching video session with the Masters of Microsurgery

DIEP Flap - *Phillip Blondeel*

TMG Flap - *Frederic Bodin*

PAP Flap - *Laurent Lantieri*

DIEP and Lymph Node Transfer - *Moustapha Hamdi*

Lumbar Perforator Flap - *Jaume Masia*

- Pre-registration required, limited to 50 participants -

9.00 – 10.00

DELAYED PROSTHETIC BREAST RECONSTRUCTION

Chairmen: Michael Scheflan, Roy de Vita

Why I prefer to use an expander - *Jean-Marc Piat*

Why I prefer to use a definitive implant - *Isabelle Sarfati*

Remote control CO2 expander - *Jeffrey A. Ascherman*

Composite breast implant reconstruction - *Maurizio Nava*

Breast symetrization with Orbishape - *Michael Atlan*

10.00 – 10.15

KEYNOTE LECTURE

State of the Art in Breast Tattooing - *Rosina Fleury*

10.15 – 10.45
COFFEE BREAK

10.45 – 11.45

LATISSIMUS DORSI SESSION

Chairmen: Günter Germann, Benoit Couturaud

Short Scar Latissimus dorsi - *Emmanuel Delay*

Muscle-sparing Latissimus Dorsi - *Ali Mojallal*

TDAP flap - *Moustapha Hamdi*

How to avoid fonctionnal sequelae after Latissimus Dorsi flap - *Emmanuel Delay*

11.30 - 12.30

📍 Room Carlades

WORKSHOP BIOTIC PHOCEA

“LIVE TATTOOING” RECONSTRUCTION OF THE NIPPLE & AREOLA

Rosina Fleury, Alexandre Barathon

11.45 - 12.00

KEYNOTE LECTURE

Fluorescence Imaging in breast reconstruction - *Corinne Becker*

12.00 - 13.00

UPDATES IN FAT GRAFTING

Chairmen: Günter Germann, Dominique Casanova

Breast reconstruction by exclusive fat grafting: a new protocol - *Isabelle Sarfati*

Overview of the recommendations about fat grafting around the world - *Ali Mojallal*

Micro and nano fat grafting in thin & irradiated tissues - *Michael Schefflan*

How to deal with cystosteatonecrosis? - *Emmanuel Delay*

13.00 - 14.00

LUNCH BREAK

13.00 - 14.00

📍 Room Grands Causses

SYMPOSIUM LIFECCELL REVOLVE

Breakthrough in lipoprocessing, REVOLVE™ : quality, quantity and cost effectiveness in an efficient closed system

Speakers: *Weiguo Hu, Emma Wright*

14.00 - 15.00

PARIS BREAST RENDEZ-VOUS CONTEST

Referee: Christopher Andree

“France VS Rest of the World”

5 Clinical Cases of Breast Reconstruction

1 French Team: *Frederic Bodin, Benoit Couturaud, Isabelle Sarfati*

1 International Team: *Marzia Salgarello, Jaume Masia, Günter Germann*

Live audience vote for the winning team!

15.00 - 15.15

KEYNOTE LECTURE

Is robotic surgery the future of breast surgery? - *Benjamin Sarfati*

15.15 - 16.00

FREE FLAP RECONSTRUCTION: HOW TO GO FASTER AND SAFER?

Chairmen: Jaume Masia, Frederic Bodin

How to go safer: *Phillip Blondeel - Laurent Lantieri*

How to go faster: *Moustapha Hamdi - Christopher Andree*

Friday, May 20th

BREAST RECONSTRUCTIVE SURGERY

15.15 - 17.15

📍 Room Carlades

TEACHING VIDEO SESSION - PART 2: IMPLANTS & PEDICLED FLAPS

Teaching video session with the Masters of Breast Reconstruction

Latissimus Dorsi - *Emmanuel Delay*

Direct-to-Implant Immediate Reconstruction without Meshes/ADM - *Benoit Couturaud*

Direct-to-Implant Immediate Reconstruction with Meshes/ADM - *Stefano Pompei*

TRAM Flap - *Jean-Marc Piat*

- Pre-registration required, limited to 50 participants -

..... 16.00 - 16.30
COFFEE BREAK

16.30 - 17.00

SECONDARY LYMPHEDEMA TREATMENT

Chairmen: Christoph Andree, Moustapha Hamdi

The French Way... *Corinne Becker*

The Spanish Way... *Jaume Masia*

17.00 - 18.00

SYMPOSIUM «FLUORESCENCE IN BREAST SURGERY»

Chairman: Jaume Masia

Speakers : *Corinne Becker, Michael Fallucco*

«Spy» NOVADAQ

«Fluobeam» FLUOPTICS

«Artemis» CLERAD

20.30

📍 Room Carlades

GALA DINNER ABOARD A RESTAURANT BOAT

The Gala Dinner will be a unique moment of conviviality on the banks of the Seine, aboard a restaurant boat.

You will discover the magical night of Paris, the “City of Lights”, and enjoy the live music and the dance party!

BREAST REVISION - PART 1

Chairmen: Isabelle Sarfati, Stefano Pompei

Neosubpectoral pocket - *- Scott Spear*

How to manage capsular contracture - *- Luciano Chaves*

Revision breast surgery using ADM - *- Roy de Vita*

Implant salvage after periprosthetic breast infection - *- Dominique Casanova*

11.30 - 11.45

KEYNOTE LECTURE

Current Controversies in Breast Implant: core studies, late seroma, double capsule & ALCL - *- Maurizio Nava*

11.45 - 12.30

BREAST REVISION - PART 2

Chairmen: Mario Pelle Ceravolo, Constantin Stan

How to correct nipple malposition - *Armand Azencot*

The Double-bubble deformity - *Giovanni Botti*

Symmastia repair - *Scott Spear*

Lower pole contour irregularities - *Mario Pelle Ceravolo*

12.30 - 13.30

LUNCH BREAK

12.30 - 13.30

📍 Room Grands Causses

LUNCH SYMPOSIUM MOTIVA

"Safety Through Innovation: How technology is solving Breast Aesthetics"

Speakers: *Scott Spear, Marcos Sforza, Christelle Vasseur, Juan José Chacón Quirós*

Topics :

- NanoSurfaces vs Inflammation
- The Ergonomix Concept: Softness with Tissue Dynamics
- RFID and Biosensors in breast implants

13.30 - 14.30

DUELS IN BREAST AESTHETIC

Referees: Patrick Mallucci, Roy de Vita

Per Heden's «SIMA» VS *Constantin Stan's* «Multiplane Technique»

Maurizio Nava «macrot textured implants» VS *Stefano Pompei* «PU implants»

14.30 - 15.30

DIFFICULT CASES

Chairmen: Marzia Salgarello, Giovanni Botti

Augmentation in asymmetrical breast - *Patrick Mallucci*

Breast augmentation after massive weight loss - *Dominique Casanova*

The "jumping breast": how to avoid and how to treat? - *Mario Pelle Ceravolo*

New approach to the nipple-areolar complex herniation in tuberous breast - *Marcos Sforza*

Pectus excavatum - *Emmanuel Delay*

15.30 - 16.30

MY WORST RESULTS AND HOW TO DEAL WITH IT

Chairmen: Sinnika Suominen, Jaume Masia

- *Maurizio Nava*

- *Constantin Stan*

- *Per Heden*

- *Patrick Mallucci*

16.30 - 16.45

CLOSING REMARKS

ORGANIZING COMMITTEE

CONFERENCE CO-CHAIRS

FRANÇOISE RIMAREIX

Plastic Surgeon
Congress Chair
Villejuif, France

Dr. Françoise Rimareix is head of the Breast Surgery Unit at Gustave Roussy Hospital, one of the main French Comprehensive Cancer Center. She is a plastic surgeon, specialized in prosthetic and autologous breast reconstruction, microsurgery and oncoplastic surgery.

NICOLAS LEYMARIE

Plastic Surgeon
Congress Co-Chair
Villejuif, France

Dr. Nicolas Leymarie is senior consultant at Gustave Roussy Hospital, that is one of the main Comprehensive Cancer Center in France. His main activity is dedicated to prosthetic and autologous breast reconstruction, microsurgery and oncoplastic surgery.

BENJAMIN SARFATI

Plastic Surgeon
Congress Co-Chair
Villejuif, France

Dr. Benjamin Sarfati is senior consultant at Gustave Roussy Hospital, that is one of the main Comprehensive Cancer Center in France. He is specialized in prosthetic and autologous breast reconstruction, microsurgery and oncoplastic surgery. He is the funder of MeltingDoc, the professional social network for Medical Doctors: www.meltingdoc.com
He also works in private practice for aesthetic surgery.

LOCAL ORGANIZING COMMITTEE

HEBA ALKHASHNAM
Plastic Surgeon
Villejuif, France

Dr. Alkhashnam is a plastic surgeon at Gustave Roussy, one of the main comprehensive cancer centers, Villejuif, France. She graduated from University College Dublin in Ireland. She started her residency in her home country Kuwait and finished it in Paris, France. Microsurgery and autologous reconstruction is what interest her the most. She is specialized in breast and cervicofacial reconstructive surgery.

ANDREA CAVALCANTI
Breast Surgeon
Villejuif, France

Dr. Andrea Cavalcanti is member of the unit of plastic surgery in the Gustave Roussy. Her principal activity is melanoma surgery, but she also performs breast surgery.

LAURENCE DENECHERE
Medical Secretary
Villejuif, France

Laurence Denechere is the head of medical secretaries of the department of general surgery at Gustave Roussy. She is in charge of the organization of many events related to international teaching courses or congresses, especially the «Paris Breast Rendez-Vous 2015».

JEAN-REMI GARBAY
Breast Surgeon
Villejuif, France

Dr. Jean-Rémi Garbay is a surgical oncologist, specialized in breast surgery. He is member of ASCO and many national scientist societies. He is also chief editor of "La Lettre du Sénologue" a French CME journal on breast disease.

JEAN-FRANÇOIS HONART
Plastic Surgeon
Villejuif, France

Dr. Jean-François Honart is a plastic surgeon in Gustave Roussy Hospital, one of the main French Comprehensive Cancer Centers. He is specialized in prosthetic and autologous breast reconstruction, microsurgery and oncoplastic surgery.

FRÉDÉRIC KOLB
Plastic Surgeon
Villejuif, France

Dr. Frédéric Kolb is head of the Plastic and Reconstructive Surgery Unit at Gustave Roussy Hospital, one of the main French Comprehensive Cancer Center. He is specialized in microsurgery reconstruction of Breast and Head and Neck. He has also a particular interest in lymphaticovenous anastomosis for lymphoedema treatment.

CHAFIKA MAZOUNI
Breast Surgeon
Villejuif, France

Dr. Chafika Mazouni is fully accredited gynaecologist surgeon specialized in breast surgery at Institute Gustave Roussy, Villejuif, France. She is a member of the French Society of Senology and Breast Pathology and EORTC PathoBiology group (PBG). Her research interests are Risks prediction in breast cancer: development of nomograms, rare tumours in breast and axillary nodal risk.

QUENTIN QASEMYAR
Plastic Surgeon
Villejuif, France

Dr. Qasemyar is a plastic surgeon at Gustave Roussy hospital, one of the main comprehensive cancer centers. He is specialized in free flap reconstruction, especially in head

THE FACULTY

ARMAND AZENCOT
Plastic Surgeon
Bordeaux, France

Dr Azencot is a plastic surgeon. He exercises in private practice in Bordeaux. He has a particular interest in Breast aesthetic surgery.

He is currently the President of the French Society of Plastic and Aesthetic Surgery (SOFCEP), he is also a member of the International Society of Aesthetic Plastic Surgery (ISAPS).

thetic Surgery at the SANA-Clinic in Düsseldorf, specializing in aesthetic and reconstructive breast surgery. His aesthetic clinic is located at Königsalle 88 in Düsseldorf. He has been awarded several research grants and received various honors.

ERIC AUCLAIR
Plastic Surgeon
Paris, France

Dr. Eric Auclair exercises in Paris for more than twenty years. Member of the French Society of Plastic, Reconstructive and Aesthetic Surgery (SOFCEP) and the International Society of Aesthetic and Plastic Surgery (ISAPS), he was President of the French Society of Aesthetic Plastic Surgery (SOFCEP) in 2012.

CHRISTOPH ANDREE
Plastic surgeon
Düsseldorf, Germany

Professor Christoph Andree attended medical school at the University of Bonn, Germany. After his postdoctoral research fellowship at Harvard Medical School, he obtained his training in plastic and hand surgery at the University Hospital Freiburg, Germany. Presently, he is head of the department of Plastic and Aes-

ternationally renowned plastic surgeon, Dr. Eric Auclair is thought leader in the field of breast augmentation. He is one of the leaders of the French touch. This French specificity reflects the practice of cosmetic surgery tailored interventions characterized by natural

FABRICE ANDRÉ
Medical Oncologist
Villejuif, France

Fabrice André, MD, PhD, received his M.D. in Grenoble in 2002, and a PhD in Biotechnology from Paris University in 2005.

He spent one year as visiting assistant professor at the University of Texas, MD Anderson Cancer Center and was a past recipient of Young Investigator and Career Development awards from the American Society of Clinical Oncology (ASCO). He is currently Professor in the Department of Medical Oncology, Institut Gustave Roussy, Villejuif, France.

Professor André is conducting research in the field of biomarkers and personalised therapies. His research work focuses on biomarker discovery, development of targeted agents and implementation of personalised medicine in France. His team includes 50 people working on basic sciences, bioinformatics, biotechnologies and clinical research. Professor André is also leading phase I-III trials

testing targeted agents in the field of breast cancer and large national trials testing implementation of high throughput technologies in the health care system.

He has published more than 100 peer reviewed papers, including papers in the New England Journal of Medicine, Lancet, Nature Medicine, Journal of Clinical Oncology and Lancet Oncology, either as main or co-author.

Professor André is chairman of the biomarker group at UNICANCER (French cooperative group). He was a member of several scientific committees for international meetings, including ECCO, ESMO, and IMPAKT.

JEFFREY A. ASCHERMAN
Plastic Surgeon
New York, USA

Dr. Ascherman is Chief of the Division of Plastic Surgery and a Professor of Surgery at Columbia University Medical Center. He attended Harvard University where he obtained a B.A. degree with honors in Engineering Sciences. Following this, he received his M. D. from Columbia University's College of Physicians and Surgeons, and he then completed his general and plastic surgery training at the Columbia University Medical Center. In addition, he completed a cranio-facial fellowship at Hopital Necker Enfants Malades in Paris.

Dr. Ascherman is an experienced plastic and reconstructive surgeon who has published over 75 scientific articles and chapters, and has presented his work at a number of national and international meetings. He is a member of numerous plastic surgery societies, including the American Society of Plastic Surgeons, the American Society for Aesthetic Plastic Surgery, the American Association of Plastic Surgeons, and the Northeastern Society of Plastic Surgeons where he is President-Elect. Dr. Ascherman currently serves as Principal Investigator for the U.S. multi-center AirXpander trial examining a new type of remote control breast tissue

expander that is self-controlled and filled with CO2 rather than saline. He has been an active participant in humanitarian surgical missions, and has traveled numerous times to China as well as to South America to perform volunteer surgeries.

MICHAEL ATLAN

Plastic Surgeon
Paris, France

Michael ATLAN, MD, PhD is an associate Professor, at Pierre et Marie Curie Faculty of Medicine, with a permanent position in Tenon Hospital (Assistance Publique-Hôpitaux de Paris) in an integrated Breast Cancer Center. Former head of department of Pontoise Hospital, he now is the head of Unit of Plastic and Reconstructive surgery, and pursues an academic career within his institution. With three other surgeons and two residents, his team practices aesthetic surgery and has the responsibility of dermatologic, thoracic, abdominal wall and pelvic post-oncological surgery defects. He did his residency in France between Lille and Paris (Pr Lantiéri Team) and he got a position for a Microsurgical and Hand Surgery Fellowship in Montreal and a Breast Reconstruction Fellowship in the University Of British Columbia, in Vancouver. Michael Atlans's areas of expertise are microsurgical breast reconstructions (Free flaps and Lymphedema) and the evaluation of plastic surgery innovations, especially for breast surgery (Acellular regeneration Matrix and other devices).

CORINNE BALLEYGUIER

Radiologist
Villejuif, France

Dr Corinne BALLEYGUIER, MD, PhD, radiologist at Gustave Roussy Cancer Campus, Villejuif, France. Specialized in Women Imaging, Breast and gynaecologic Imaging. She is a member of the French radiological society (SFR), the French breast Imaging society (elected as active

member since 2010) (SIFEM), the European Society of Radiology (ESR), the European Society of Breast Imaging (EUSOBI)- Active member elected since 2012, the European Society of Uro-genital Radiology (ESUR), the Radiological Society of North American Radiology, the editorial board European Journal of Radiology-Woman imaging and the ESUR gynaecological subcommittee since 2008. She is a section editor on Woman Imaging for European Journal of Radiology since 2010. Dr Balleyguier is involved in breast Imaging committee for ECR 2012-2013-2014-2015. She was the Chairwoman of Uro-Gynecological Imaging of ECR 2010 and will be the Chairwoman of breast imaging committee for ECR 2016.

CORINNE BECKER

Plastic Surgeon
Paris, France

Dr. Corinne Becker is a pioneer surgeon that developed the microsurgical autologous lymph node transfer (ALNT), also known as vascularized lymph node transfer (VLNT). Her first steps in general and plastic surgery and research began in Belgium (with Pr Bremmer, Carpentier, Graff). But her real training was performed in France in plastic surgery, hand surgery and microsurgery. She had the big honour to work with Pr Michon, Tubiana, Merle, Gilbert, Hidden, Riquet), and in Germany with Pr Muhlbaier. She combined her work with short travels all around the world for training, congresses and research programs. Her research in anatomy (many flaps discoveries), biochemistry on neurotrophic hormones and in lymphology (anatomy, histology, isotopy, radiology, genetic, biochemistry) were performed from her 2nd year of medicine till now.

Dr. Becker now works in Paris at the American Hospital and the European University Hospital Georges-Pompidou and in the United States at the Westside Regional Medical Center located near Fort Lauderdale, Florida. She is a member of the French Academy of Sur-

gery and an invited professor in New York to develop the lymphedema surgery. Dr Becker participates to various international conferences and operates all around the world. She decided to dedicate her life to patients suffering from lymphedema, a mistreated pathology leading to various complications and destroying the patient quality of life.

FRÉDÉRIC BODIN
Plastic Surgeon
Strasbourg, France

Dr Frédéric Bodin is a plastic surgery professor in the plastic reconstructive and aesthetic unit in Strasbourg. He has a particular interest in breast reconstructive microsurgery, and had a research activity in the field of prophylactic mastectomy.

Dr Bodin is a member of the French Society of plastic reconstructive and aesthetic surgery.

PHILLIP BLONDEEL
Plastic Surgeon
Gent, Belgium

Phillip Blondeel is an internationally leading expert on aesthetic and reconstructive breast surgery and one of the pioneers in the so-called perforator flap surgery. He is Professor of Plastic Surgery and Vice Chair of the Department of Plastic and Reconstructive Surgery at the University Hospital Ghent, Belgium, as well as an attending plastic surgeon at LaClinic in Montreux, Switzerland.

A native of the United States of America, Phillip Blondeel received his medical degree from the Katholieke Universiteit Leuven Medical School in Leuven, Belgium. He underwent postgraduate training in plastic surgery in the Department of Plastic and Reconstructive Surgery, Catholic University Leuven as well as at Wolfgang Goethe University in Frankfurt, Germany and earned his.

Doctor in Medical Science (PhD) degree at the Faculty of Medicine of the University of

Ghent in 1998.

Professor Blondeel is a fellow of the Collegium Chirurgicum Plasticum (Belgian Boards) and a diplomate of the European Board of Plastic, Reconstructive and Aesthetic Surgery. He holds membership in numerous scientific societies, among them the American Society for Reconstructive Microsurgery, the European Association of Plastic Surgeons and the American Society for Plastic Surgery. He is Honorary member of the South-African and Canadian Society of Plastic Surgery.

A world-renowned expert in the field of aesthetic and reconstructive surgery, Professor Blondeel is a much sought after speaker and teacher who has also authored and coauthored numerous books, book chapters, peer-reviewed articles and abstracts. He currently sits on the editorial boards of PRS-Go, the Journal of Plastic Reconstructive and Aesthetic Surgery and the Journal of Reconstructive Microsurgery.

At the end of 2011, Professor Blondeel led the team that performed the first face transplant in Belgium and is the Chair of the Vascularized Composite Tissue Allograft Program at University Hospital Gent.

GIOVANNI BOTTI
Plastic Surgeon
Salo, Italy

Giovanni Botti comes from Salò, Lake Garda, Italy and is the head manager and the main surgeon of Villa Bella Clinic, one of the best equipped and most advanced cosmetic surgery-dedicated clinics in Europe. He has taken part as faculty member in very many aesthetic surgery courses and congresses, organised by both universities and scientific societies in more than 30 different countries.

He has also performed demonstrative surgical operations in various hospitals worldwide. He is the author of four complete books: « Liposuzione ambulatoriale » (1988), « Chirur-

gia estetica dell'invecchiamento facciale » (« Aesthetic surgery of the aging face »-1995), «Mastoplastiche estetiche» ("Aesthetic mammaplasties"-2004), «Chirurgia plastica estetica del midface e del collo » (« Midface and neck aesthetic plastic surgery »- 2010), translated into English and Spanish, and has written chapters of several textbooks together with 71 scientific articles published by the most well-known international medical reviews.

Dr Botti has been awarded for his contributions to the improvement of aesthetic surgery by the American Academy of Cosmetic Surgery (Philadelphia, 1990), by the Japanese Society of Aesthetic Plastic Surgery (Tokyo, 2000), by the Aegyptian Society of Plastic and Reconstructive Surgery (Cairo, 2001), by IMCAS, (Paris 2003, etc), by the Romanian Society of Aesthetic, Plastic and Reconstructive Surgery (Sinaia, 2006), by the Moldavian Society of Aesthetic Surgery (2007) and by the Australasian Society of Aesthetic Plastic Surgery (2010). He has taught for several years at the post-graduate aesthetic plastic surgery class of Pavia University and of Siena University and at the aesthetic surgery Master's courses of Milan University. He has been Clinical Professor of Plastic Surgery at Verona University from 2002 until now. He has also been lecturer in the Master's Courses of Aesthetic Surgery of Padua University, Rome University, Genoa University, Wien University, Nice University, Lausanne University and has been the Director of the annual course "Vesalius" on facial plastic surgery (for Italian doctors) at Bruxelles Free University and the annual course on aesthetic plastic surgery of Villa Bella Clinic, as well as of the two annual courses on aesthetic surgery of the anatomy department of the Vienna University.

He is honorary member of the French Society of Aesthetic Surgery, of the Aegyptian Society of Plastic, Reconstructive and Aesthetic Surgery, of the Romanian Society of Aesthetic Plastic Surgery, of the Moldavian Society of Aesthetic Plastic Surgery, of the Serbian Society of Plastic, Reconstructive and Aesthetic Surgery and of the Australian Society of Aesthetic Plastic

Surgery.

He was the first President of the Italian Society of Aesthetic Plastic Surgery (AICPE), of which now he is the Honorary President. He is an active member of various national and international societies (AICPE, ISAPS, EA-SAPS, AFPS, ISLAS, IPRAS, etc). He is National Secretary of ISAPS for Italy and an ISAPS travelling Professor. And, perhaps even more important, he loves his job!

OLIVIER CARON

Geneticist
Villejuif, France

Dr Olivier CARON, MD, MSc.

After his MD, Dr O. Caron occupied a position as a Hospital Practitioner at the University Hospital of Strasbourg, France. He shared his time between the genetic lab, where he was in charge of the analysis of cancer predisposition genes and quality manager, and the oncogenetics consultation in the Department of medical Oncology. In 2008, he moved to Gustave Roussy University Hospital, Villejuif, France. He has run since then the genetic clinics in the Department of Clinical Oncology. He has been the head of the Gustave Roussy Genetics board since 2009. His activity is now focused on consultations (more than 2000/ year). He teaches at Gustave Roussy School of Oncology (Paris-Sud University). He is involved in around 10 major national and international studies in the field of breast/ovarian predisposition, Lynch syndrome and other digestive cancer predispositions, Li Fraumeni syndrome and melanoma predisposition. He has more than 60 publications on these various topics.

DOMINIQUE CASANOVA

Plastic Surgeon
Marseille, France

Professor Dominique Casanova is the chief of the Plastic and Reconstructive department in University Hospital of La Conception, in Marseille. His

team takes care about all parts of plastic surgery with a special interest for microsurgery or autologous fat grafting. He is member of national plastic surgery societies.

LUCIANO CHAVES

Plastic surgeon
Brasilia, Brazil

Degree in medicine in 1986 at the University of South Fluminense Rio de Janeiro, in 1989-1991 he held residency in plastic surgery at the hospital Saint Louis in Paris in the plastic surgery department headed by Prof. Pierre Banzet and Jean Marie Servant.

Title of specialist in plastic surgery by the University Paris V Rene Descartes.
University degree in micro surgery at the Faculty of Medicine Lariboisière-Saint Louis Paris. Foreign assistant at the University of Paris with mammary reconstruction monograph.

Fellow at the service of Prof. Pitanguy Brazil.
Full member of the Brazilian college surgeons
Full member of the Brazilian Society of Plastic Surgery.
Member of the American Federation of ibero-latina plastic surgery.

Member of ASAPS, ISAPS

Member of the international college of surgeons

Curator of the foundation of the Brazilian society of plastic surgery.

President of Brazil Capital Institute, specialized hospital for plastic surgery.

Vice President of SBCP 2102/2013

Secretary General of SBCP 2014/2105

Current president of the Brazilian Society of Plastic Surgery 2016/2017.

KRISHNA CLOUGH

Plastic Surgeon
Paris, France

Dr. Krishna B. CLOUGH is a surgical oncologist and a plastic surgeon, specialized in breast surgery. In 1996, he was appointed Chief of the Department of General and Breast Surgery of the Curie Institute. He decided to resign from his hospital functions in 2004 to found the PARIS BREAST CENTRE-L'INSTITUT DU SEIN, the first centre in France dedicated exclusively to breast surgery and breast cancer. He, along with a small group of European surgeons, created the concept of "Oncoplastic surgery". Dr. CLOUGH is a member of the board of directors of the French Society of Breast Disease. He is one of the founding members of

Breast Surgery international and a member of the European Society of Mastology. He is the founder and director of the breast surgery masterclass at the European School of Surgery (Paris), and is the co-chairman of the breast surgical course at the European Institute of Oncology (Milan).

BENOIT COUTURAUD
Plastic Surgeon
Paris, France

Dr Couturaud is a plastic surgeon. He shares his activity between the oncologic surgery department in Institut Curie (Paris) and his private practice.

After his residency in Paris, he continued his preparation as a plastic surgeon in Hôpital Saint-Louis.

He focuses his activity on Oncoplastic Surgery and Breast Reconstruction.

EMMANUEL DELAY
Plastic Surgeon
Lyon, France

Dr. Emmanuel DELAY is a plastic surgeon in Lyon.

Specialized in Plastic, Reconstructive and Aesthetic Surgery since 1991, he is a member of the French Society of Plastic, Reconstructive and Aesthetic Surgery (SOFCPRE), a member of the American Society of Plastic Surgery (American Society of Plastic Surgeons ASPS) since 1994, and is the creator of the ISPRES (International Society of Plastic Regenerative Surgery).

He focuses on five research themes and topics: Plastic and Aesthetic Breast Surgery and Plastic and Aesthetics of the face, the Plastic Surgical Oncology, the fat transfer, and the original fat and mammary stem cells, with their applications such as regenerative medicine, regenerative surgery, and tissue engineering.

ROY DE VITA

Plastic Surgeon
Roma, Italia

Chief of Plastic Surgery Department at National Institute for Cancer of Rome. Coordinator of the Breast Unit at National Institute for Cancer of Rome.

Roy de Vita has been specialist in plastic, reconstructive and aesthetic surgery, and since 2002 has been the the Chief of the Plastic and Reconstructive Surgery Department of the Cancer National Institute "Regina Elena" of Rome. He is also Coordinator of the Breast Unit of the same Institute.

His main field of clinical and scientific interest is reconstructive and aesthetic breast surgery, an area in which he has widely published.

More than 600 breast surgical reconstructive procedures are performed per year in his department, including 2 stage, DTI and autologous tissue. In private practice he carries out more than 200 breast augmentations per year and 40% of these procedures are for revisional surgery.

Roy de Vita is a member of the Italian Society of Plastic, Reconstructive and Aesthetic Surgery (SICPRE), American Society for Plastic Surgery (ASPS) and Italian Society for Surgery (SIC).

JIAN FARHADI

Plastic Surgeon
London, England

Mr Farhadi is a Consultant Plastic Surgeon and Director of the Department of Plastic and Reconstructive Surgery at Guy's and St Thomas' Hospital, London. He trained in Switzerland and London, where he developed a specialisation in aesthetic and reconstructive surgery of the breast, including microvascular breast reconstruction. Due to his extensive experience he has become an authority on this subject, where he is regularly invited as a speaker to national and international conferences. Mr Farhadi runs an active research group, where he

has published widely.

He is the Chair of the London Breast Meeting, an annual international conference. Jian is the founder of BRA Foundation, a registered charity to raise awareness on the options of breast reconstruction. He is co-Chair of the European Master's in surgical oncology, reconstructive and aesthetic breast surgery.

ALFRED FITOUSSI
Plastic Surgeon
Paris, France

After studying medicine in Paris, Dr Fitoussi quickly became internationally known for specialising in all types of surgery of the breast (tumoural, malformative, reconstructive and aesthetic). Dr Fitoussi is general surgeon, considered in oncology, a graduate of microsurgery and plastic, aesthetic and reconstructive surgery.

Having spent ten years at the Hospital of Pitié-Salpêtrière, he integrated the team of the Institute Curie in 1994. He developed the custom-made coverage of breast cancer there, participated in the initiating oncoplasty and in the development of mammary reconstruction by prosthesis followed by musculo-cutaneous scarp. The aesthetic part of breast cancer care, reconstruction and deformities becomes essential and is an integral part of the treatment of these mammary pathologies.

Dr Fitoussi has published several works on surgery of the breast: books of popularisation, books of surgical techniques. He participates in the formation of doctors and surgeons who specialise in surgery of the breast, is responsible for the D.I.U (inter-university diploma) of surgical techniques senologiques, carcinologiques and repair.

ROSINA FLEURY
Dermopigmentation
Lausanne, Switzerland

A Swiss national of Italian extraction, Rosina is a graduate in business studies. After several years wor-

king in commerce, she decided to retrain in a sector that is very close to her heart, dermopigmentation. Ever since her early childhood she has always showed great enthusiasm for painting and drawing. She has even exhibited her oils on canvas on many occasions. With her sympathetic nature and artistic skills, her chosen profession of dermoc cosmetics was always a natural progression for Rosina. Over the past 15 years, this peerless artist has established her reputation in the field of corrective and aesthetic dermopigmentation in both Switzerland and abroad. She practices from her surgery in Lausanne and at many hospitals and private surgical clinics. She works closely with various departments at the CHUV teaching hospital in Lausanne and many private doctors, clinics, surgeons, gynaecologists and dermatologists also call on her services. Thanks to her well-established reputation, many patients from abroad also request her services, from France, Germany, Italy and even further afield, such as Singapore...

She is regularly asked to give speeches at medical conferences in Switzerland and abroad, and to produce expert reports in the field of permanent makeup. She has a deep sensibility for corrective dermopigmentation and particularly favours the psychological approach associated with her activities in order to restore a full sense of femininity to women devastated by breast cancer. She masks the vitiligo, skin discolouration and scars. Patients with burns or those suffering from alopecia or a cleft lip also make use of her services. For many years now she has also been working with transgender patients in order to complete gender reassignment surgery with the all-important subtle details. She is able to enhance the femininity or masculinity of the face through aesthetic pigmentation of the eyebrows, eyes or lips, giving the patient renewed confidence and self-assurance. Aesthetic pigmentation, namely permanent makeup, is also part of her day-to-day work for both women and men who wish to enhance their eyebrows, lips or eyes, as well as those who suffer from tre-

mors or poor eyesight, or to athletes and any others for whom the simple act of applying makeup constitutes a complicated task. Over many years now her expertise and experience in corrective and aesthetic dermopigmentation have been acknowledged by hospitals, doctors and patients.

Day in and day out, she attacks her work with both enthusiasm and passion!

GÜNTER GERMANN
Plastic Surgeon
Heidelberg, Germany

Dr. Günter Germann was the President of the internationally renowned and largest German Society of Plastic, Reconstructive and Aesthetic Surgeons. As Head of Department, Professor Dr Germann managed the Berufsgenossenschaftliche Unfallklinik in Ludwigshafen (Ludwigshafen BG Casualty Clinic), Germany, for 18 years, giving it an international reputation. He is considered an excellent microsurgeon within the international arena and has been practising plastic surgery for more than 30 years, with over 25 years of experience in hand surgery. As early as 2001, Professor Germann was awarded the McCormack prize of the University of Rochester (New York) for his scientific work. He is a distinguished member of numerous scientific committees worldwide and has held the Professorship of Plastic Surgery and Hand Surgery at Heidelberg University since 1999. Above and beyond that, Professor German maintains a research laboratory that is primarily dedicated to the development of diagnostic and surgical procedures – also in the area of stem cell research.

MOUSTAPHA HAMDİ
Plastic Surgeon
Brussels, Belgium

Moustapha Hamdi was born in Syria. He was graduated from medical school of Damascus University. He did his training in general and plastic surgery

in Brussels, Glasgow and Atlanta. He had worked as professor in Gent University for 10 years.

Currently, he is the head of department of plastic and reconstructive surgery in free university of Brussels. He is also a consultant in Edith Cavell Medical Institute.

Pr. Hamdi is an international speaker and organizer of many meetings and courses in breast surgery. His major expertise is breast reconstruction mainly with perforator flaps; however, he has also contributed to many chapters of aesthetic breast surgery.

He is not only chairman of the section of microsurgery within the Royal Belgian Society for Plastic Surgery (RBSPS) and a member of the Belgia Board of Plastic Surgery but he is an expert member of the high council of Ministry of health in Belgium. He is also active within the scientific committee of the European Society of Plastic Surgeons (EURAPS); in addition, he is an honorary member in Australian, Colombian and Syrian societies and a member of the British (BAPS), International (ISAPS), American (ASPS and ASRM) and the World Society of Microsurgery (WSRM) societies.

PER HEDEN
Plastic Surgeon
Stockholm, Sweden

Dr Per Hedén began his medical training at the Karolinska Institute in Sweden, and entered plastic surgery training in 1978. He early developed interest in the then emerging field of microsurgery and subsequently became a driving force in establishing microsurgery practice in the region. In 1981 this lead to the first microsurgical operation performed in Stockholm.

In 1982, he was offered a position in Australia. This was followed by plastic surgery research in the U.S. under Professor Elof Eriksson in Il-

linois, and at Harvard University in Boston. In 1990 Dr Per Hedén attained associate professorship at Karolinska Institute, and became Head of the microsurgery unit at Sabbatsberg Hospital.

Dr Per Hedén founded Akademikliniken in 1991, which now is one of Europe's largest private hospital that specializes in plastic surgery. He has published more than 50 scientific articles, and is a member of many national and international plastic surgical societies.

Professor Hedén has developed several new techniques applying to the use of form stable anatomical breast implants. He has written several textbook chapters on breast augmentation and he has been invited to many coun-

tries where he has performed operations to demonstrate his techniques.

Being a very early user of Botulinum toxin and Hyaluronic acid fillers Dr Hedén is also well known for his non-surgical facial rejuvenation techniques and has held numerous international workshops demonstrating his techniques.

Since 2002 Dr Hedén also runs the annual international aesthetic Beauty Through Science meeting in Stockholm. This is now northern Europe's largest aesthetic medicine meeting.

LAURENT LANTIERI

Plastic Surgeon
Paris, France

Chief of the Plastic Reconstructive and Aesthetic Surgery Department at Hôpital Européen Georges Pompidou, Dr Laurent Lantieri is specialized in Breast reconstruction and microsurgery. He is an innovator, and was the pioneer of breast reconstruction using DIEP flap in France. He also performed the first full-face transplantation.

PATRICK MALLUCCI

Plastic Surgeon
London, England

Patrick Mallucci graduated in 1989 from medical school to embark upon his surgical training. In 1993 he became a fellow of the Royal College of Surgeons of England in recognition of this. Having completed his general surgery he undertook his training in Plastic Surgery both in the UK and abroad, London, Oxford, Stoke Mandeville, Australia and Paris. In 1996 he was awarded the higher post graduate degree of Doctorate in Medicine (MD) having spent two years at University College London developing the concept of scarless wound healing. He was awarded the Fellowship of the Royal College of Surgeons in Plastic Surgery, FRCS (Plast.) in 1998. Mr Mallucci is entered into the GMC Specialist Register for Plastic Surgery. He is a full member of the British Association of Plastic Surgeons (BAPS) and the British Association of Aesthetic Plastic Surgeons (BAAPS). He is currently a Consultant Plastic Surgeon at University College London and the Royal Free Hospitals. Mr Mallucci has published comprehensively within the Plastic Surgery Literature throughout his career and presents his work internationally at Plastic Surgery Conferences. He is actively involved in teaching both at undergraduate and postgraduate level. He has also been involved with the media through BBC documentaries, news items and chat shows. His broad training and international fellowships have en-

abled him to develop special interests within the broad field of Plastic Surgery – his specialist interests include: Aesthetic Surgery – facial, breast and body contour as well as an interest in breast reconstruction.

JAUME MASIA

Plastic Surgeon
Barcelona, Spain

After achieving his medical degree at Barcelona University, Professor Masia carried out plastic surgery training at Sant Pau University Hospital in Barcelona. He completed his training through fellowships at Canniesburn Hospital (Glasgow, UK) and Queen Victoria Hospital (East Grinstead, UK).

In 1999, he introduced DIEP flaps for breast reconstruction in Spain. He got a post as consultant in plastic surgery at Sant Pau University Hospital in 2001. Two years later he became the Chief of the Microsurgery Unit and in 2007 he won the position as Chief of Plastic Surgery Department and Professor in Plastic Surgery at Universitat Autònoma de Barcelona.

Professor Masia was President of the Spanish Society of Plastic Surgery from 2011-13 and currently he is the President of the Spanish Society of Plastic Surgery Foundation for Education. Since 2010 he has been the Director of the International Master's Degree on Reconstructive Microsurgery at Universitat Autònoma de Barcelona. He has been invited as lecturer and visiting Professor in more than 100 international meetings on plastic surgery. He is author of several papers and books; his current main interests are perforator flaps, lymphoedema surgery and medical education.

ALI MOJALLAL

Plastic Surgeon
Lyon, France

ACADEMIC POSITIONS

- Co-chair of the Department of Plastic Reconstructive and Aesthetic Surgery, University of Lyon
- Volunteer Clinical Assistant Professor, University of Texas SouthWestern, Dallas Medical Center
- Head of the Facial Composite Allotransplant Team of the University of Lyon
- Director of the Research Program on Adipose Derived Stem Cells, Cell and Tissue Bank, Lyon
- Vice-President of Rhône-Alpes Society of Plastic Surgery
- Director of the Wound Healing
- Diploma at the University of Lyon
- Co-director of the Microsurgery Diploma at the University of Lyon
- Co-director of the Hair Transplant Diploma at the University of Lyon

ACADEMIC DEGREES

- Full Professor of Plastic Reconstructive and Aesthetic Surgery, University of Lyon UCBL1, 2014
- HDR, Ability to be Director of a Research Program, 2012
- PhD on Adipose Derived Stem Cells, 2010
- Master 2 of Medical Bioengineering, 2007
- French and European Board of Plastic Reconstructive and Aesthetic Surgery, 2004
- Medical Degree, University of Lyon, 2003

MAURIZIO NAVA
Plastic Surgeon
Milan, Italy

Dr Maurizio NAVA is an oncologic surgeon, specialized in Plastic and Reconstructive surgery, head of the Plastic Surgery Unit at the « Istituto Nazionale dei Tumori » in Milan. He is also the President of the Oncologic Reconstructive Surgery School, and member of the Italian Society of Plastic Surgery, the European Society of Surgical Oncology, American Society of Plastic and Reconstructive Surgery and European Society of Mastology.

JEAN-MARC PIAT
Plastic Surgeon
Strasbourg, France

Dr Jean-Marc Piat began to apply plastic surgery techniques to breast diseases and developed breast reconstruction as of 1989 at the university hospital of Strasbourg (right at the start of immediate reconstruction with prosthesis and secondary reconstruction with TRAM flap). He created in 2009 the Institut du Sein de l'Orangerie that is aiming at enabling better care for our patients treated for breast cancer, through a multidisciplinary team. In 2010, the institute started a partnership with the senology department of the Sirio-Libanes Hospital from Sao Paulo, the most respected department in South America when it comes to breast cancer. This led to international recognition for the institute that became in 2013 the first French structure accredited by the « Société Internationale de Sénologie » (SIS). In 2012, along with Dr. Liegeois, Jean-Marc Piat created a surgical association within the institute, the "Strasbourg Breast Center", aiming at international development.

MARIO PELLE CERAVOLO
Plastic Surgeon
Roma, Italy

In 1975, Mario Pelle Ceravolo was graduated from the University of Rome, Medical School. In 1975, he was appointed as teaching-assistant in General and Experimental Surgery at the University of Rome, Medical School.

On January 1979, he was admitted to Prof. Pitanguy private clinic where he spent 5 years up to January 84 working as resident and teaching attending at the University of Rio de Janeiro Medical School and as Prof. Pitanguy's assistant in his private clinic. On February 1980, he was Chief Resident at Prof. Pitanguy's Clinic and Santa Casa General Hospital.

On January 86, Dr Pelle was Chief of Plastic

Surgery at Hesperia Hospital, Modena Italy. Since January 1990 is President of "The International Medical Academy". In February 1992, he was Chief of Plastic Surgery at Rome American Hospital, University affiliated Hospital.

He is Member of "The Italian Society for Plastic, Reconstructive and Aesthetic Surgery". He is honorary member of the "Romanian Society Plastic Surgery". He is corresponding member of "The Brazilian Society for Plastic Surgery". He is member of the ISAPS International Society of Aesthetic Plastic Surgery. He is teaching attending at the Master in Aesthetic Surgery, at the University of Padova Medical school He is, presently, chief of Plastic Surgery at Mercede Hospital, Rome. He has been invited to Teaching Plastic Surgery Programs all over the world by "The Plastic Surgery Ambassador Plan". He has published about 60 papers in different languages (Italian, Portuguese, English).

STEFANO POMPEI
Plastic Surgeon
Roma, Italy

Academic degrees , scholarships and actual functions in Public Institutions :

- 1980 : Medical Degree with honours at the University "La Sapienza" , Rome Italy (duration 6years)
- 1985 : Specialization Degree with honours in General Surgery (5 year course) at the University "La Sapienza" Rome , Italy
- 1990 : Specialization Degree with honours in Plastic and Reconstructive Surgery at the Catholic University "Policlinico Gemelli" , Rome , Italy
- Winner of a 3 year public scholarship at the National Cancer Institute "Regina Elena" , Rome , Italy.
- Winner of a 2 year public scholarship of the Italian National Cancer League for a Stage and full time Residency Program in Plastic Surgery at Hospital for the Facial Defects , Sao Paulo , Brasil.
- 1987 – 2000 : Consultant Plastic Surgeon at the National Cancer Institute "Regina Elena", Rome The clinical activities were institutionally oriented to the Oncological reconstructive procedures related to the treatment of Breast Cancer , Head and Neck cancer and Dermatological Oncology .
- 2001 to june 2015 : Head of Plastic and Reconstructive Division at the "S.Pertini" General Hospital , Rome , Italy.
- Jul.2015 until present: Head of the Plastic and Reconstructive Surgery Division at S. Camillo General Hospital , Rome .
- Coordinating a Staff of 9 attending Plastic Surgeons for both elective surgeries , clinical cases and calls coming from the Emergency Department of the Hospital .
- Coordinating the Plastic Surgery activities of theTeam related to the Breast Unit and the requested multidisciplinary treatment of Breast Cancer patients : Office consultations , personalized reconstructive approach for each case, Day Surgery activities , post-op follow-up ,etc.
- Coordinating the activities of trainees , medical visitors and residents in Plastic Surgery or General Surgery frequenting a stage at the Unit .
- Coordinating all the scientific activities of the Plastic Surgery Team , including work in progress for clinical research papers , conferences and organization of courses . Weekly follow up and preparation during the clinical meeting with the Plastic Surgery team to present new patients and discussing the possible post op complications.
- January the 1st , 2016 : Chairman of Department and Coordinator of the Oncological Area , San Camillo General Hospital , Rome.

SOFIA RIVERA
Radiation Oncologist
villejuif, France

Dr Sofia Rivera is an MD, MSc, head of a radiation unit at Gustave Roussy, cancer center, currently finishing her PhD in radiobiology. She is a 39 year-old radiation oncologist working at Gustave Roussy Cancer Center since January 2013.

She has studied medicine and radiation oncology in Paris, Dijon and Madrid (ERASMUS program), with some time spent in Equatorial Guinea (humanitarian mission). She passed the Radiation Oncology Board Certification Exam in 2008 with her medical thesis on the evaluation of quality assurance procedures by dummy run in a phase III trial. During her training, she was charmed by the multidisciplinary nature of radiation oncology and the enormous potential for innovation within this field. In addition to her clinical work, she undertook a Master's degree of Science in Radiobiology and is currently finishing her PhD on a translational radiobiology topic evaluating the combination of a Histone Deacetylase (HDAC) inhibitor and radiation in preclinical in vitro and in vivo Non Small Cell Lung Cancer models at the Gustave Roussy Radiobiology Laboratory (INSERM1030 Unit), running in parallel a phase I trial combining an HDAC inhibitor with palliative irradiation which has just been completed. Following her studies in the Cancer Center of Dijon (France), she also worked as an assistant professor in Radiation Oncology in the university hospital of Saint Louis in Paris while becoming senior radiation oncologist in the same institution. In 2013, she accepted to head Unit A of the radiation oncology department at Gustave Roussy Cancer Center, Paris Cancer Campus, Villejuif (France) leading the breast cancer radiation unit. With eight linear accelerators, and a ninth being installed currently, about 4000 new radiotherapy treatments per year (among which more than a third given to breast cancer patients), she leads a growing multidisciplinary unit at the cutting edge of research and technology in an expanding department in the stimulating environment of a major cancer center. She promotes clinical radiation oncology unit work in close relationship with the INSERM1030 Unit located in nearby preclinical research building, facilitating translational research programs with the integration of research into daily clinical practice.

MAHASTI SAGHATCHIAN

Medical Oncologist
Villejuif, France

Mahasti Saghatichian, MD, MS, is a medical oncologist who joined the staff at the Comprehensive Cancer Centre "Institut Gustave Roussy" (IGR), Villejuif, France, in 2002. She works as senior medical oncologist in the Breast Cancer Unit, where she is especially involved in the translational research programmes.

She studied Medicine at the University of Paris V before becoming a Board Certified Breast-Oncologist in 1999. She worked as associate Professor in Oncology at Hôpital Européen Georges Pompidou in Paris. After a Masters in Immunology, she followed a Doctoral Research Fellowship at the University of Amsterdam directed by Laura van't Veer on genomic predictors of breast cancer relapse.

Her main interests include breast cancer care and the development of a quality of care programme in European Cancer centres.

She is a member of the Executive Committee of the Transbig Consortium and Mindact Trial, dedicated to translational research in breast cancer.

Her main achievement in the field of European affairs includes chairmanship of the Accreditation-Designation Programme (European programme of assessment of quality of care and designation of comprehensive cancer centres) for the Organisation of European Cancer Institutes (OECI). She has been successfully leading this programme for 13 years, resulting in accreditation and designation of 27 centres in 13 countries. She is leading a research programme in this field within the 7 FP Project EurocanPlatform, funded by the European Commission.

She is member of the editorial board of the Annals of Oncology and several other journals. She has been publishing in peer-reviewed international journals.

**MARZIA SALGARELLO**

Plastic Surgeon
Roma, Italy

Marzia Salgarello is Associate Professor of Plastic Surgery since 2014 at the Catholic University of "Sacro Cuore", Rome, Italy. Since 2014 she is the Head of the Department of Plastic and Reconstructive Surgery of the University Hospital "A. Gemelli", Rome, Italy, where she also is in charge of the Plastic Surgery Specialization Course (Plastic Surgery Residency) of the Catholic University of "Sacro Cuore", Rome, Italy. At the present time she focuses her activity on breast reconstruction and aesthetic, and in post-oncologic reconstructive microsurgery, performing more about 100 free flaps each year as first surgeon. She is author of about 90 peer-reviewed articles, of chapters on reconstructive and aesthetic plastic surgery in 10 books, and she is the Editor of the book "Breast reconstruction: current techniques" published by InTech in 2012. She has given presentations at national and international plastic surgery meetings, especially covering all aspects of breast reconstruction and aesthetic breast surgery, and microsurgery. She is Section Editor for reconstructive plastic surgery for Aesthetic Plastic Surgery Journal, Reviewer for Archives of Plastic Surgery and Acta Otorhinolaryngologica Italica, Member of the Italian Society of Plastic, Reconstructive and Aesthetic Surgery (SICPRE), of the Italian Society of Microsurgery (SIM), of the International Society of Aesthetic Plastic Surgery (ISAPS), of the International Society of Plastic Regenerative Surgery (ISPRES), and of the European Association of Plastic Surgeons (EURAPS).

**REMI SALMON**

Breast Surgeon
Paris, France

Dr. Salmon was the Chief of Breast surgery Unit in Institut Curie, Paris. He is as member of the French Surgery Academy. He is also member of many

national scientist societies and surgical association. He is now a private practice surgeon at the « Poterne des Peupliers » Hospital in Paris.

**ISABELLE SARFATI**

Breast Surgeon
Paris, France

Dr Isabelle Sarfati is a plastic surgeon, specialising in breast surgery and facial cosmetic surgery.

She graduated in both general surgery and in plastic, reconstructive and cosmetic surgery.

After completing her surgical training in Paris (former Intern and former Head of the Clinique des Hôpitaux de Paris) and in the United States, she was assistant to Dr. Paul Tessier, one of the world leaders in plastic surgery during the 1980s. A long period of collaboration with Dr Krishna CLOUGH (then Head of department at the Curie Institute) led to a desire to create a structure combining public and private health care: a place where high quality medicine, teaching and research could coexist with consultation, care and reassurance. This project led to the foundation of the PARIS BREAST CENTRE in 2004.

Dr Sarfati participates in the development of innovative techniques in cosmetic and reconstructive surgery. In particular, she is one of the pioneers in the use of filling techniques (fat graft and hyaluronic acid) in breast surgery.

She is a member of SOFCEP, the French Society of Plastic Surgeons and of the French Society of Senology.

She teaches at the European School of Surgery and participates in training students of the Inter-University Degree in Senological, Oncological and Restorative Surgical Techniques.

MICHAEL SCHEFLAN

Plastic Surgeon
Tel Aviv, Israel

- ISAPS professor of Plastic Surgery
- Board certified in general surgery and plastic surgery
- Private practice: Tel- Aviv, Israel
- Medical school: Switzerland and Israel
- General surgery training: New York (Albert Einstein & Mount Sinai University) and Boston (Harvard University)
- Plastic surgery training: Atlanta, Georgia (Emory University)
- Past affiliations: Medical College of Virginia, Tel Aviv Medical Center
- Past president of Israel Society of Plastic Surgeons
- Past president of Mediterranean Society of Plastic Surgeons
- Member of ISAPS, IPRAS, ASAPS, ASPS, IMCAS
- Past National Secretary for ISAPS Israel
- Past international editor for Aesthetic surgery Journal

Author of more than 150 publications, books and chapters on: breast reconstruction, ADM and tissue reinforcement, breast aesthetics, breast implants, fat grafting, body contouring, facial rejuvenation.

Recipient of:

- James Barrett Brown Award (AAPS)
- Raymond Villan award (by ASAPS)
- Carl Moyer Award (ABA)
- Malliniac lecture Award (ASPS)

Main interests are in aesthetic & reconstructive breast surgery, facial rejuvenation and body contouring, fat grafting and ADRCs.

- Consultant to TEI Bioscience Boston Ma.
- Consultant for Allergan Europe & USA
- Advisor for Vectra XT (Canfield and Allergan)
- Consultant for Stem Cell Medicine (Jerusalem, Israel)

MARCOS SFORZA

Plastic Surgeon
Birmingham, England

Professor Marcos Sforza has finished his Plastic Surgery training in Brazil with Professor Ivo Pitanguy at the Santa Casa de Misericórdia of Rio de Janeiro.

He was a teaching instructor of Plastic Surgery in Professor Pitanguy's school for 4 years, training young Plastic Surgeons.

In 2009, he was nominated Professor of UNIFESO School of Medicine responsible for the Internship in Plastic Surgery for Medical Students in UK.

In 2010 he was nominated an Examiner of the Intercollegiate Exam of the Royal College of Surgeons (RCSEd), one of the greatest honors in my life.

On a regular basis he is invited to various conferences around the world to confer his experience on over 5000 procedures. He is responsible for one of the few internships in Cosmetic Surgery in Europe, for young doctors.

Professor Sforza is also a leader of the pioneering research on Body Dysmorphic Disorder

He is a member of the following medical societies:

- International Society of Aesthetic Plastic Surgery – ISAPS
- UK General Medical Council
- Irish General Medical Council
- Brazilian Society of Plastic Surgery
- Brazilian College of Surgeons

SCOTT SPEAR

Plastic Surgeon
Georgetown, USA

Dr. Scott Spear is the founding Chairman of the Department of Plastic Surgery at Georgetown Uni-

versity Hospital and also the founder of the Washington, D.C. area 6 year integrated training program in plastic surgery. He is past President of The American Society of Plastic Surgeons as well as the past President of The Northeastern Society of Plastic Surgeons. Dr. Spear is recognized leader and pioneer in plastic surgery, specializing in reconstructive and cosmetic breast surgery. He has published over 250 peer-reviewed papers and chapters particularly on breast surgery, and authored 3 editions of the seminal textbook, *Surgery of the Breast: Principles and Art*. He is the founder and co-chair of the important groundbreaking multidisciplinary conference, Breast Cancer Coordinated Care ("BC3").

He is widely credited with developing or contributing to many advanced in Plastic Surgery including the FDA approval of saline and silicone breast implants, Nipple Sparing Mastectomy, Anatomically Shaped Breast Implants, Acellular Dermal Matrices for both reconstructive and cosmetic breast surgery, augmentation-mastopexy, fat grafting in reconstructive breast surgery, the concept of the neosubpectoral pocket, nipple reconstruction, and nipple tattooing.

He has been honored as the Varaztad Kazanjian lecturer at the MGH, the Robert Goldwyn, Lecturer at Harvard, the Thuss lecturer at Vanderbilt, the Hoyle Campbell lecturer at the University of Toronto, the Bernard Sarnat lecturer at Cedars of Sinai, the Eugene H. Courtiss memorial lecturer at Northeastern Society of Plastic Surgeons, the Theogaraj lecturer at the Medical College of Virginia, the Tanzer lecturer at the Dartmouth-Hitchcock medical center, the Millard lecturer at Georgetown University Hospital, and the Spear lecturer at Georgetown University Hospital.

CONSTANTIN STAN
Plastic Surgeon
Bucarest, Romania

Dr. Constantin Stan is a member of the Romanian

Plastic and Re-constructive Surgery Society, member of the European Academy for Cosmetic Surgery (EACS), member of the French Society for Aesthetic Surgery (FSAS), member of the North-American Academy for Cosmetic and Re-constructive Surgery, honorary member of the South American Academy for Aesthetic Surgery.

In 1997 he became a first physician, specialized in ORL and cervical and facial surgery and since then he has performed only aesthetic surgery in private centres.

During all these years, Dr. Stan attended several supra-specialized courses in Romania but mainly abroad; whose peak was the Master's Degree in Aesthetic Surgery at the University in Milan, Italy, within the School of Plastic Surgery, in university year 2000-2001 (Professor Donatti and Professor Pellegrini).

In 2003 Dr. Stan started his second specialization training in Plastic and Reconstructive Surgery, in the clinic of Professor Ioan Lascar in Floreasca Emergency Hospital in Bucharest.

SHAWNA C. WILLEY
Breast Surgeon
Washington, United States

Shawna C. Willey, MD, FACS, is a professor of surgery at Georgetown University Medical Center, vice chairman of clinical affairs in the Surgery Department at MedStar Georgetown University Hospital, and director of MedStar's Regional Breast Health Program. She also is a member of the Breast Cancer Program at the Lombardi Comprehensive Cancer Center in Washington, D.C.

A respected breast surgeon with more than 30 years of experience, Dr. Willey is recognized nationally and internationally for her leadership and expertise. A past president of the American Society of Breast Surgeons, Dr. Willey has performed medical mission work and conducted international health educa-

tion programs throughout the world.

Dr. Willey has a particular interest in the surgical management and surveillance of patients who are gene mutation carriers, especially those who undergo prophylactic mastectomy. She is a pioneer in the field of nipple-sparing mastectomy and has authored several publications on the topic. Along with Dr. Scott Spear, Dr. Willey has co-chaired three BC3 conferences (Breast Cancer Coordinated Care) that address local and regional control of breast cancer. In addition, she co-edited the second and third editions of *Surgery of the Breast*.

Dr. Willey believes strongly in MedStar Georgetown's tradition of focusing on both excellent clinical care and research that advances the field of breast surgery. She divides her time between treating patients with the most advanced care available and conducting research to benefit patients in the future.

Dr. Willey is principal investigator or co-investigator on numerous clinical trials. Subjects under study include predictors of post-mastectomy local-regional recurrence and distant metastases, and management of a positive lymph node in patients receiving preoperative chemotherapy. In addition, she is a prolific author and presenter at numerous national and international conferences.

Dr. Willey has spent her entire career in the Washington, DC, area, mentoring many students, residents and breast surgery fellows. She is a member of the American Society for Clinical Oncology, Breast Surgery International and many other professional organizations. Among her many honors and awards are recognitions as Top Doctor (U.S. News & World Report), Best Doctors, and America's Top Doctors.

REVOLVE™

Système de traitement de volumes élevés de graisse

Dans une étude préclinique,¹ le système REVOLVE™ a permis d'obtenir des résultats plus reproductibles.

*La corrélation entre ces résultats et les résultats chez des sujets humains n'a pas été établie.

Système rentable par rapport aux procédures de centrifugation de gros volumes.²

- 5 fois plus rapide que la centrifugation³
- Facile : Nécessite moins d'étapes pour traiter de larges quantités de tissu adipeux par rapport au Puregraft™.⁴
- Système intégré, clos et en ligne

Contactez LifeCell France : 06 65 80 76 72

Avant toute utilisation, les médecins doivent prendre connaissance des informations relatives aux risques spécifiés dans le *Mode d'emploi* du système REVOLVE™
